It is important to recognize that *Water for Texas - 2007* is the ultimate product of tens of thousands of hours of effort by planning group members, consultants, and staff at the TWDB. At the end of each regional summary in Chapter 2, all planning group members for each region are recognized. Below is the list of TWDB staff that worked with the planning groups in many different ways throughout the preparation of the 2006 Regional Water Plans and also contributed to the preparation of this, the 2007 State Water Plan.
