

ENVIRONMENTAL DATA FORM

REQUIRED FOR THE:

**Water Development Fund,
Rural Water Assistance Fund,
Water Infrastructure Fund,
State Participation Program,
Economically Distressed Areas Program,
Agricultural Loan Program,
State Water Implementation Fund for Texas**

Mid-level Environmental Review: Environmental Data Form

A mid-level environmental review is required by 31 Texas Administrative Code §363.14 of the Texas Water Development Board's (TWDB) rules for most projects receiving state funding. The purpose of a mid-level review is to ensure the proposed project has been adequately reviewed by regulatory agencies and determine, within a reasonable level of certainty, if the project is expected to have adverse environmental impacts. The attached form applies to projects which appear to cause environmental impacts that are limited in number or scope or which may be readily avoided, minimized, or mitigated. If however, based upon the information provided in this form and recommendations from regulatory agencies, this is not the case, the preparation of a full Environmental Assessment may be required.

Preliminary Review Available and Encouraged

As a service to our clients, preliminary review of the Environmental Data Form by TWDB staff prior to agency coordination is available and encouraged. Preliminary review ensures that the appropriate agency coordination requirements are identified in advance.

Timing

The Environmental Data Form may be submitted with the application or prepared during the planning phase of the project after a loan commitment has been secured. Please note that issuance of an Environmental Determination by TWDB environmental staff is required prior to TWDB approval of the Engineering Feasibility Report and release of design and/or construction funds.

Levels of Environmental Review in State Programs

1. **Categorical Exclusion (CE)**: Generally applies to infrastructure rehabilitation or functional replacement, minor expansion of facilities, construction of adjoining facilities on existing sites, etc. If you believe the proposed project will qualify for a CE, consult with TWDB environmental review staff before proceeding with this form.
2. **Mid-level Review**: The majority of projects financed by the TWDB will qualify for a mid-level environmental review and will use this form.
3. **Full Environmental Review**: For projects that may have numerous environmental impacts that cannot be readily avoided, minimized or mitigated, consult with TWDB environmental review staff prior to submitting this form regarding the potential need to prepare an Environmental Assessment.

A full explanation of TWDB environmental requirements is provided in 31 Texas Administrative Code §363.14. Draft and final versions of the Environmental Data Form, as well as any questions regarding the preparation of the document or review process, should be submitted to:

**Environmental Reviewer
Regional Water Planning & Development
Water Supply & Infrastructure
Texas Water Development Board
P.O. Box 13231
Austin, Texas 78711-3231
Telephone: (512) 936-0938**

Proposed Project

Does the proposed project involve a probable or known public controversy relating to environmental or social impacts (e.g. substantial rate increase, displacement of persons, etc.)?

Yes No *If Yes, a public meeting or hearing may be required.*

Attach additional sheets if the space provided is not adequate.

Purpose and need for the proposed project:

General Information

Provide a concise description of the proposed project:

General Information

Provide a bulleted list of project components:

How many streams crossings intersect the proposed project area? #:
 Does the project involve the dewatering of any stream segments? Yes No
 Proposed construction methods to be used at crossings (e.g. trenching, dewatering, boring, etc.):

Is coordination with the U.S. Army Corps of Engineers for a jurisdictional determination for permitting requirements required? Yes No

If Yes, please describe the status of this coordination:

Estimated Project Schedule for the Completion of:

Planning:	Start of Construction:
Acquisition:	Construction Completion:
Permitting:	
Design:	

General Information

Mitigative Measures

Provide a list of potential adverse impacts of the proposed project and a description of how those impacts will be avoided, minimized, or mitigated. This list will be used to develop conditions for the Environmental Determination issued by the TWDB. Please ensure the information is consistent with what was provided to regulatory agencies and incorporates applicable agency recommendations. When responding to recommendations provided by regulatory agencies, identify which are feasible and which will not be implemented.

<i>Impact:</i>	<i>Recommended/required by What Entity? (if applicable)</i>	<i>Mitigative Measures Description:</i>

Other Programs and Projects

Provide a description of any other projects in progress that may be affected by the proposed project (e.g. TxDOT plans for Road Construction, etc.).

List of Required Attachments

Documents lacking required attachments will not be accepted

Provide the following maps in PDF format when submitted digitally. Identify the project footprint on all maps. Example project maps are provided online at:

CONTACT NAME

ADDRESS

RE: Review Requested for State Funded Project
Consultation# _____, Date _____
_____(Project Name) _____
_____(Applicant) _____
_____(Project Location) _____

Dear CONTACT:

The APPLICANT is pursuing funding through the Texas Water Development Board's State funded FUNDING PROGRAM for the proposed PROJECT NAME (TWDB PROJECT NUMBER). The purpose of this coordination is to identify potential environmental and permitting issues: specifically, permits or mitigative conditions required to ensure compliance with environmental regulations specific to your agency's area of jurisdiction.

The attached Environmental Data Form provides a project description, project maps and a list of all agencies with whom we are coordinating. Recommended or required actions identified through this coordination, including permits, will be considered for inclusion as conditions in the TWDB's environmental determination. Please cite the relevant authority (statue/regulation) for recommendations.

INCLUDE A BRIEF EXPLANATION TAILORED TO THE AGENCY'S SPECIFIC AREA OF JURISDICTION.

INCLUDE THE FOLLOWING INFORMATION IN YOUR DESCRIPTION:

- How the project will/will not potentially adversely affect any environmentally sensitive features and/or require permitting or mitigation.
- A description of how impacts will be avoided (to be included as conditions of the environmental determination, e.g., avoidance of clearing or construction activities during migratory bird nesting season).

We request your concurrence with our determination that _____. If you have any questions or need any additional information, please contact me at (tel:) _____ or by e-mail at _____.

Sincerely,
APPLICANT
