

PROJECT FUNDING REQUEST

BOARD DATE: May 4, 2023 **Team Manager:** Tom Barnett

ACTION REQUESTED

Consider approving by resolution a request from the Westbound Water Supply Corporation (Eastland County) for \$5,366,157 in financial assistance consisting of \$1,610,000 in financing and \$3,756,157 in principal forgiveness from the Drinking Water State Revolving Fund for planning, design, and construction of a water system improvements project.

STAFF RECOMME	NDATION
Approve	No Action

BACKGROUND

Westbound Water Supply Corporation (Corporation) is located in Eastland County roughly 100 miles west of Fort Worth. The Corporation provides water service to approximately 2,800 customers and 950 connections.

PROJECT NEED AND DESCRIPTION

The Corporation has substantial head loss throughout its water system and lacks adequate line pressures in certain pressure planes that can fall below the Texas Commission on Environmental Quality's (TCEQ) minimum pressure requirements. The water system has old and hydraulically undersized distribution lines, pumps, and pumping stations. The Corporation also has limited capability to control and monitor the distribution system remotely and limited emergency backup power.

The proposed project would replace undersized water lines with larger diameter water lines in order to reduce head loss and improve line pressures throughout the water system, construct one new pump station, rehabilitate one existing pump station, improve the capability of the existing SCADA system, and develop an emergency preparedness plan.

PROJECT SCHEDULE

Task	Schedule Date
Closing	August 4, 2023
Engineering Feasibility Report Completion	February 21, 2024
(End of Planning Phase)	
Design Phase Completion	June 18, 2024
Start of Construction	August 18, 2024
Construction Completion	September 12, 2025

KEY ISSUES

The Corporation qualified to receive principal forgiveness as a disadvantaged community and to fund the development of an emergency preparedness plan. They also qualified for

COMMITMENT PERIOD: SIX (6) MONTHS TO EXPIRE NOVEMBER 30, 2023

zero-percent financing for the remainder of the project budget as a disadvantaged small/rural community.

LEGAL/SPECIAL CONDITIONS

- Adopt and implement the water conservation program
- Conversion and conveyance
- Principal forgiveness agreement
- Useful life certification

Risk Score: 2B Audit Reviewed: FY 2021

Key Indicators

Indicator	Result	Benchmark
	Eastland County:	
Population Growth, Average Annual 2010-2020	-0.47%	State: 1.49%
Top 10 Customers % of Total Revenue	12%	10-15%
Median Household Income as % of State	56%	100%
Days of Cash on Hand (3-year Average)	170 days	30-149 days
Net Fixed Assets/ Annual Depreciation	27 years	12-24 years
Debt Service Coverage Ratio	1.65x	1.0x
Debt-to-Operating Revenues	2.78x	4.00-5.99x
	Eastland County:	State:
Unemployment Rate (January, 2023)	3.90%	3.60%
Working Capital Ratio	3.9	> 1.0

Key Risk Score Strengths

- The Corporation has a debt service coverage ratio of 1.65 which indicates that their water system revenues are high enough to cover the existing debt and proposed debt.
- A high working capital ratio shows a strong liquidity position for the Corporation and would allow them to use their short-term assets to cover their short-term debt
- The Corporation's days of cash on hand is above the benchmark, which indicates that they can cover their operating expenses with cash on hand.

Key Risk Score Concerns

- Eastland county is experiencing population decline at -0.47%, however the number of connections for the Corporation have increased by 15% since 2018.
- The county has a low median household income that is 56% of the state's, this limits the amount of revenue that can be generated by the population of the system.
- The household cost factor is higher than the benchmark at 5.07%. However, rates have been in place since October 2022 and the Corporation already meets coverage for both its existing debt and the proposed debt.

PLEDGE

Legal Pledge Name	System Revenues
Type of Pledge	☐ Tax ☒ Revenue ☐ Tax & Revenue ☐ Contract ☐ Other

RATES AND CHARGES

Average Residential Use	Gallons/Month	Current Rates	Projected Rates Year 2023	Current Household Cost Factor	Projected Household Cost Factor
Water	5,990	\$116.79	\$116.79	5.07	5.07

Cost Savings

Based on a 30-year maturity schedule and current interest rates, the Corporation could save approximately \$1,685,299 over the life of the financing. The Corporation is also saving \$3,756,157 in principal forgiveness.

A RESOLUTION OF THE TEXAS WATER DEVELOPMENT BOARD
APPROVING AN APPLICATION FOR FINANCIAL ASSISTANCE IN THE AMOUNT OF
\$5,366,157 TO THE WESTBOUND WATER SUPPLY CORPORATION
FROM THE DRINKING WATER STATE REVOLVING FUND
THROUGH THE PROPOSED PURCHASE OF
A PROMISSORY NOTE IN THE AMOUNT OF \$1,610,000
AND EXECUTION OF A LOAN AGREEMENT
AND
\$3,756,157 IN PRINCIPAL FORGIVENESS

(23 -)

WHEREAS, the Westbound Water Supply Corporation (Corporation), located in Eastland County has filed an application for financial assistance in the amount of \$5,366,157 from the Drinking Water State Revolving Fund (DWSRF) to finance the planning, design, and construction of certain water system improvements identified as Project No. 62942; and

WHEREAS, the Corporation seeks financial assistance from the Texas Water Development Board (TWDB) through the TWDB's proposed purchase of a Promissory Note in the amount of \$1,610,000 and execution of a Loan Agreement and \$3,756,157 in principal forgiveness, all as is more specifically set forth in the application and in recommendations of the TWDB's staff; and

WHEREAS, the Corporation has offered a pledge of a parity lien on the net revenues of the Corporation and a parity lien mortgage on the system of the Corporation as sufficient security for the repayment of the Obligations; and

WHEREAS, the commitment is approved for funding under the TWDB's pre-design funding option, and initial and future releases of funds are subject to 31 TAC § 371.13; and

WHEREAS, the TWDB hereby finds:

- 1. that the revenue pledged by the Corporation will be sufficient to meet all the Obligations assumed by the Corporation, in accordance with Texas Water Code § 15.607:
- 2. that the application and assistance applied for meet the requirements of the Safe Drinking Water Act, 42 U.S.C. §§ 300f *et seq.*, as well as state law, in accordance with Texas Water Code § 15.607;
- 3. that the Corporation has submitted a proposed program of water conservation for the more efficient use of water that will meet reasonably anticipated local needs and conditions and that incorporates practices, techniques or technology prescribed by the Texas Water Code and TWDB's rules;
- 4. that the TWDB has approved a regional water plan for the region of the state that includes the area benefiting from the project and the needs to be addressed by the

project will be addressed in a manner that is consistent with the approved regional and state water plans, as required by Texas Water Code § 16.053(j);

- 5. that the Corporation meets the definition of "Disadvantaged Community" in 31 TAC § 371.1(24) and is therefore eligible for principal forgiveness in the amount of \$3,681,157;
- 6. that the Corporation is eligible for principal forgiveness in an amount of \$75,000 in order to enhance the emergency preparedness of the water system during severe weather events; and
- 7. in addition, the Corporation qualifies as a "small" or "rural" disadvantaged community in the applicable IUP and is therefore eligible for funding with an interest rate of zero percent (0%) in an amount, including the origination fee, not to exceed \$1,610,000.

NOW, THEREFORE, based on these findings, the TWDB resolves as follows:

A commitment is made by the TWDB to the Westbound Water Supply Corporation for financial assistance in the amount of \$5,366,157 from the Drinking Water State Revolving Fund through the TWDB's proposed purchase of a Promissory Note in the amount of \$1,610,000 and execution of a Loan Agreement and \$3,756,157 in Principal Forgiveness. This commitment will expire on November 30, 2023.

Such commitment is conditioned as follows:

Standard Conditions:

- 1. this commitment is contingent on a future sale of bonds by the TWDB or on the availability of funds on hand;
- 2. prior to closing, the Corporation must submit to the Executive Administrator an attorney's opinion confirming the legal authority for the Corporation to incur the Obligations that is acceptable to the Executive Administrator;
- 3. this commitment is contingent upon the Corporation's compliance with all applicable requirements contained in 31 TAC Chapter 371;
- 4. the Obligations must provide that the Corporation may prepay all or part of the amounts of principal and interest then due on the loan on any regularly scheduled payment date as specified in the Repayment Schedule, as revised, beginning no earlier than the first interest payment date that is 10 years from the date of the first delivery of funds from the TWDB to the Corporation pursuant to this Agreement;
- 5. the Obligations must provide that the Corporation may prepay all or part of the amounts of principal and interest then due on the loan on any regularly scheduled payment date as specified in the Repayment Schedule, as revised, beginning no earlier

- than 10 years from the date of the first delivery of funds from the TWDB to the Corporation pursuant to this Agreement;
- 6. the Corporation, or an obligated person for whom financial or operating data is presented to the TWDB in the application for financial assistance either individually or in combination with other issuers of the Corporation's Obligations or obligated persons, will, at a minimum, regardless of the amount of the Obligations, covenant to comply with requirements for continuing disclosure on an ongoing basis substantially in the manner required by Securities and Exchange Commission (SEC) in 17 CFR § 240.15c2-12 (Rule 15c2-12) and determined as if the TWDB were a Participating Underwriter within the meaning of such rule, such continuing disclosure undertaking being for the benefit of the TWDB and the beneficial owners of the Corporation's Obligations, if the TWDB sells or otherwise transfers such Obligations, and the beneficial owners of the TWDB's bonds if the Corporation is an obligated person with respect to such bonds under SEC Rule 15c2-12;
- 7. the Obligations must contain a provision requiring the Corporation to levy a tax and/or maintain and collect sufficient rates and charges to produce system revenues in an amount necessary to meet the debt service requirements of all outstanding obligations and to maintain the funds established and required by the Obligations;
- 8. the Obligations must include a provision requiring the Corporation to use any loan proceeds from the Obligations that are determined to be remaining unused funds, which are those funds unspent after the original approved project is completed, for enhancements to the original project that are explicitly approved by the Executive Administrator or if no enhancements are authorized by the Executive Administrator, requiring the Corporation to submit a final accounting and disposition of any unused funds;
- 9. the Obligations must include a provision requiring the Corporation to use any loan proceeds from the Obligations that are determined to be surplus funds remaining after completion of the project and completion of a final accounting in a manner as approved by the Executive Administrator;
- 10. the Obligations must contain a provision that the TWDB may exercise all remedies available to it in law or equity, and any provision of the Obligations that restricts or limits the TWDB's full exercise of these remedies shall be of no force and effect:
- 11. loan proceeds are public funds and, as such, the Obligations must include a provision requiring that these proceeds shall be held at a designated state depository institution or other properly chartered and authorized institution in accordance with the Public Funds Investment Act, Government Code, Chapter 2256, and the Public Funds Collateral Act, Government Code, Chapter 2257;
- 12. loan proceeds shall not be used by the Corporation when sampling, testing, removing, or disposing of contaminated soils and/or media at the project site. The Obligations shall include an environmental indemnification provision wherein the Corporation

agrees to indemnify, hold harmless and protect the TWDB from any and all claims, causes of action or damages to the person or property of third parties arising from the sampling, analysis, transport, storage, treatment and disposition of any contaminated sewage sludge, contaminated sediments and/or contaminated media that may be generated by the Corporation, its contractors, consultants, agents, officials and employees as a result of activities relating to the project to the extent permitted by law;

- 13. prior to closing, the Corporation shall submit documentation evidencing the adoption and implementation of sufficient system rates and charges or, if applicable, the levy of an interest and sinking tax rate sufficient for the repayment of all system debt service requirements;
- 14. prior to closing, and if not previously provided with the application, the Corporation shall submit executed contracts for engineering and, if applicable, financial advisor and bond counsel contracts, for the project that are satisfactory to the Executive Administrator. Fees to be reimbursed under the contracts must be reasonable in relation to the services performed under the contract, and acceptable to the Executive Administrator;
- 15. prior to closing, when any portion of the financial assistance is to be held in escrow or in trust, the Corporation shall execute an escrow or trust agreement, approved as to form and substance by the Executive Administrator, and shall submit that executed agreement to the TWDB;
- 16. the Executive Administrator may require that the Corporation execute a separate financing agreement in form and substance acceptable to the Executive Administrator;
- 17. the TWDB retains the option to purchase the Obligations in separate lots and/or on an installment basis, with delivery of the purchase price for each installment to be paid against delivery of the relevant installment of Obligations as approved by the Executive Administrator;
- 18. the Obligations must provide that the Corporation will comply with all applicable TWDB laws and rules related to the use of the financial assistance;
- 19. the Obligations must provide that the Corporation must comply with all conditions as specified in the final environmental finding of the Executive Administrator when issued, including the standard emergency discovery conditions for threatened and endangered species and cultural resources;
- 20. the Obligations must contain a provision requiring the Corporation to maintain insurance coverage sufficient to protect the TWDB's interest in the project;

State Revolving Fund Conditions:

- 21. the Corporation shall submit outlay reports with sufficient documentation on costs on a quarterly or monthly basis in accordance with TWDB outlay report guidelines;
- the Obligations must include a provision stating that all laborers and mechanics employed by contractors and subcontractors for projects shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality in accordance with the Davis-Bacon Act, and the U.S. Department of Labor's implementing regulations. The Corporation, all contractors, and all sub-contractors shall ensure that all project contracts mandate compliance with Davis-Bacon. All contracts and subcontracts for the construction of the project carried out in whole or in part with financial assistance made available as provided herein shall insert in full in any contract in excess of \$2,000 the contracts clauses as provided by the TWDB;
- 23. the Obligations must include a provision stating that the Corporation shall provide the TWDB with all information required to be reported in accordance with the Federal Funding Accountability and Transparency Act of 2006, Pub. L. 109-282, as amended by Pub. L. 110-252. The Corporation shall obtain a Data Universal Numbering System (DUNS) Number and shall register with System for Award Management (SAM), and maintain current registration at all times during which the Obligations are outstanding;
- 24. the Obligations shall provide that all loan proceeds will be timely and expeditiously used, as required by 40 CFR § 35.3135(d), and also shall provide that the Corporation will adhere to the approved project schedule;
- 25. The Obligations and Principal Forgiveness Agreement must contain a covenant that the Corporation will abide by all applicable construction contract requirements related to the use of iron and steel products produced in the United States, as required by 31 TAC § 371.4 and related State Revolving Fund Policy Guidelines;
- 26. the Obligations and Principal Forgiveness Agreement must contain a covenant that the Corporation will abide by all applicable requirements related to the Build America, Buy America Act, Public Law 117-58;

Drinking Water State Revolving Fund Conditions:

- 27. prior to or at closing, the Corporation shall pay an origination fee approved by the Executive Administrator of the TWDB pursuant to 31 TAC Chapter 371;
- 28. prior to closing, the Texas Commission on Environmental Quality, must make a determination, the form and substance of which is satisfactory to the Executive Administrator, that the Corporation has demonstrated the necessary financial, managerial, and technical capabilities to proceed with the project or projects to be funded with the proceeds of these Obligations;

29. prior to release of funds for professional consultants including, but not limited to, the engineer, financial advisor, and bond counsel, as appropriate, the Corporation must provide documentation that it has met all applicable state procurement requirements as well as all federal procurement requirements under the Disadvantaged Business Enterprises program;

Water Supply Corporation Conditions:

- 30. the Corporation's indebtedness to the TWDB shall be evidenced by loans specifically secured by:
 - a. a first or parity lien on the gross revenues of the Corporation's water system (System); and
 - b. a first or parity lien mortgage on the System;
- 31. upon closing or within 20 days after closing, the Corporation must file a Deed of Trust with the County Clerk of the county in which the property is located, as required by Business and Commerce Code, Chapter 9, or a Utility Security Instrument with the Secretary of State's Office and corresponding notice with the County Clerk, as required by Business and Commerce Code, Chapter 261, as evidence of the TWDB's security interest in the Corporation's System. Within thirty (30) days of the date of each filing, the Corporation shall submit a copy of the recorded instrument to the TWDB;
- 32. upon closing or within 20 days after closing, the Corporation must file a security instrument with the Secretary of State's Office, as required by Business and Commerce Code, Chapter 9 or Chapter 261 to evidence the TWDB's security interest in any personal property directly related to water supply and/or sewer service, owned or to be acquired by the Corporation. A copy of the recorded security instrument shall be submitted by the Corporation to the TWDB within thirty (30) days of its filing with the Secretary of State's Office;
- 33. prior to closing, the Corporation must obtain a commitment from a title insurance company in accordance with the standards established by the Texas Department of Insurance, resulting in the issuance of a mortgagee title insurance policy on the property owned in fee simple, upon which the TWDB will be given a first or parity lien mortgage. A copy of the mortgagee title insurance policy shall be submitted to the TWDB within thirty (30) days of its execution;
- 34. prior to closing, the Corporation must cure any defects or liens upon the property listed in Schedule C of the title insurance company commitment that the Executive Administrator deems necessary;
- 35. prior to release of funds for construction, the Corporation must provide the TWDB with evidence that the necessary acquisitions of land, leases, easements, and rights-of-way have been completed, or that the Corporation has the legal authority necessary to complete the acquisitions;

- 36. prior to closing, the Corporation must submit to the Executive Administrator evidence that the Corporation's bylaws have been amended to include the following requirements:
 - a. as long as the Corporation is indebted for a loan or loans made by or through the TWDB, the bylaws shall not be altered, amended, or repealed without the prior written consent of the Executive Administrator; and
 - b. the Corporation is a nonprofit corporation; no part of the income of the Corporation will be distributed to the Corporation's members, directors, or officers:
- 37. prior to closing, if the Corporation is pledging a lien on real property that is to be on parity with a lien or liens on real property securing debt that will remain outstanding after closing the TWDB's loan, then the Corporation must execute a Parity Agreement with each entity that holds such debt that is acceptable in form and substance to the Executive Administrator;
- 38. the Obligations shall include a special covenant prohibiting the Corporation from encumbering, pledging or otherwise impairing the revenues of the System in any manner with respect to the payment of any Obligations or with respect to any liability, except for the payment of the following: (1) maintenance and operating expenses payable within the current fiscal year with current revenues; and (2) additional debt, and that the Corporation shall in no way encumber, pledge or otherwise impair its title to the land used by or for the System or any interests therein, including improvements and facilities of the System, without prior TWDB approval;
- 39. the Obligations must require the accumulation of a reserve fund of no less than average annual debt service requirements, to be accumulated in equal monthly installments over the initial sixty (60); and
- 40. if the Corporation has existing revenue obligations with the same pledge of security as the proposed Obligations that will remain outstanding after any loan(s) made by the TWDB pursuant to this commitment, the lien or liens securing the Obligations issued to the TWDB shall be at least on a parity with lien or liens securing such outstanding obligations.

PROVIDED, however, the commitment is subject to the following special conditions:

Special Conditions:

- 41. prior to closing, the Corporation shall adopt and implement the water conservation program approved by the TWDB;
- 42. the Corporation must notify the Executive Administrator in writing, thirty (30) days prior to taking any actions to alter its legal status in any manner;

- 43. the Obligations must include a provision requiring that the Corporation notify the Executive Administrator in writing prior to any action by it to convey its Obligations held by the TWDB to another entity, the conveyance and the assumption of the Obligations must be approved by the TWDB;
- 44. prior to closing, the Corporation shall execute a Principal Forgiveness Agreement in a form and substance acceptable to the Executive Administrator;
- 45. the Principal Forgiveness Agreement must include a provision stating that the Corporation shall return any principal forgiveness funds that are determined to be surplus funds in a manner determined by the Executive Administrator; and
- 46. prior to the release of funds, the Corporation shall provide a schedule of the useful life of the project components prepared by an engineer as well as a certification by the applicant that the average weighted maturity of the obligations purchased by the TWDB does not exceed 120% of the average estimated useful life of the project, as determined by the schedule.

APPROVED and ordered of record this 4th day of May 2023.

Threshold Type:				per day		

Does the applicant meet Water Loss Threshold Requirements?

Yes

No

NA

ADDITIONAL INFORMATION

STAFF NOTES AND RECOMMENDATIONS

DEFINITIONS

Adopted refers to a water conservation plan that meets the minimum requirements of the water conservation plan rules and has been formally approved and adopted by the applicant's governing body.

Apparent losses are paper losses that occur when the water reaches a customer, but the volume is not accurately measured and/or recorded due to unauthorized consumption, customer meter inaccuracy, or billing system and collection data errors.

Approvable refers to a water conservation plan that substantially meets the minimum requirements of the water conservation plan rules but has not yet been adopted by the applicant's governing body.

Best Management Practices are voluntary efficiency measures that save a quantifiable amount of water, either directly or indirectly, and that can be implemented within a specific time frame.

GPCD means gallons per capita per day.

GCD means gallons per connection per day.

Infrastructure Leakage Index (ILI) is the current annual real loss divided by the unavoidable annual real loss (theoretical minimum real loss) and only applies to utilities with more than 3,000 connections and a connection density of more than 16 connections per mile. The ILI is recommended to be less than 3 if water resources are greatly limited and difficult to develop, between 3 and 5 if water resources are adequate to meet long-term needs but water conservation is included in long-term water planning, and between 5 and 8 if water resources are plentiful, reliable, and easily extracted. The ILI is recommended as a bench marking tool, but until there is increased data validity of the variables used in the calculation, the ILI should be viewed with care.

NA means not applicable.

Real losses are the physical losses, largely leakage, from the infrastructure: mains, valves, and storage tank overflows. Real loss constitutes background leakage (unreported and difficult to detect), unreported leakage (leaks that do not surface but could be detected), and reported leakage (leaks that often surface and those that are detected by the utility through leak detection).

Residential GPCD is the amount of residential water use (single and multi-family customer use) divided by the residential population divided by 365.

Total GPCD is the amount of total system input volume divided by the retail population divided by 365.

Total water loss is the sum of the apparent and real water losses.

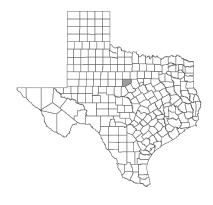

Water loss is the difference between the input volume and the authorized consumption within a water system. Water Loss consists of real losses and apparent losses.

Water Loss GPCD is the amount of water loss divided by the retail population divided by 365.

Water Loss per Connection per Day Calculated as the water loss volume divided by the number service connections divided by 365. This indicator allows for reliable performance tracking in the water utility's efforts to reduce water losses. It replaces water loss percentage.

Water Loss Thresholds are levels of real and apparent water loss determined by the size and connection density of a retail public utility, at or above which a utility receiving financial assistance from the Texas Water Development Board must use a portion of that financial assistance to mitigate the utility's system water loss.

Wholesale Adjusted represents that some utilities provide large volumes of wholesale water to other providers that travel through the general distribution system, so a calculation has been established to adjust for that volume of wholesale water. These adjustments are only applicable for use in determining whether a utility meets or exceeds water loss thresholds in review of their application for financial assistance. These adjustments should not be used for performance tracking or benchmarking.
