

TWDB Agricultural Water Conservation Grant Funding Webinar

Join TWDB for a webinar on our [Agricultural Water Conservation Grants](#). Funds are normally made available on a competitive basis each year to state agencies and eligible political subdivisions (e.g. groundwater conservation districts, irrigation districts, river authorities, institutions of higher learning). This webinar will explain the application process with examples of typical funding categories and types of agricultural water conservation projects previously funded. Learn how your organization may be able to participate in the program and offer up your ideas for potential new funding categories in future years.

Host: Linda Ruiz McCall, Education Specialist at TWDB, has extensive experience in providing education through in-person and online training activities. She will host this webinar and provide technical support during the event.

Presenter: Cameron Turner, Team Lead for Agricultural Water Conservation Programs at TWDB, has 5+ years of experience with the agricultural water conservation grants program. He will discuss the application process, explain how proposals are evaluated, and offer a brief overview of the life of a typical Ag Grant project from initiation, negotiation, execution, through progress reporting and project completion.

When: Tuesday, August 21, 2012 - 9:30 to 10:30 a.m. (CST)

Who should attend: Groundwater Conservation Districts, Irrigation Districts, River Authorities, State Agencies, and State University Systems.

Where: Webinar delivery allows for each attendant to log in from their own computer to attend.

Registration([registration now closed](#)): To register for this free webinar on the TWDB Agricultural Water Conservation Grants Program, please enter your contact information into this **registration** link at least one week prior to the event. Please check back for future workshop offerings. Thank you.

Our Mission

To provide leadership, planning, financial assistance, information, and education for the conservation and responsible development of water for Texas
