## Clean and Drinking Water State Revolving Funds Project Priority Invitation State Fiscal Year 2023

The Texas Water Development Board (TWDB) is inviting entities to submit information on projects to be included in the upcoming fiscal year's State Revolving Fund programs' Intended Use Plans.

To be included in the initial Project Priority List for State Fiscal Year (SFY) 2023, entities must submit a completed Project Information Form through the [online application](#) or by completing and submitting the [Microsoft Word versions](#). Project Information Forms must be received by **midnight CST on March 4, 2022**.

The Clean and Drinking Water State Revolving Funds financial assistance programs help communities save money by providing cost-effective funding for wastewater and water infrastructure projects. Entities that use these programs achieve substantial savings by receiving below-market interest rates and, in some instances, principal forgiveness.

The Infrastructure Investment and Jobs Act appropriated additional funds for the State Revolving Fund programs, including special appropriations that will be available for "all eligible activities" in the SFY 2023 Intended Use Plan, along with other funding restricted to special eligibilities such as lead service line replacement activities and emerging contaminants. At this time we anticipate using all or at least a substantial portion of the additional funding provided in the first year for "all eligible activities" to assist proposed projects submitted by the March 4, 2022 due date.

Principal forgiveness may be available for entities that qualify as disadvantaged communities or small/rural disadvantaged systems, for projects with green components, for urgent need situations, or for emergency preparedness. The Drinking Water State Revolving Fund also may include principal forgiveness for Very Small Systems.

Reminder: Project Information Forms submitted last year must be updated to be included in the SFY 2023 Intended Use Plan lists. You may access Project Information Forms or update forms through the links below:
