Clean and Drinking Water State Revolving Funds Project Priority Invitation State Fiscal Year 2027

The Texas Water Development Board (TWDB) invites entities to submit information on projects to be included in the upcoming state fiscal year's State Revolving Fund programs' "General Activities" Intended Use Plans.

Project Information Forms (PIF) must be received by 5:00 p.m. CST on Friday, March 6, 2026.

To be included in the initial Project Priority List for **State Fiscal Year (SFY) 2027**, entities must submit a completed PIF in one of two ways:

- 1) via TWDB's [Online Loan Application](#) (OLA) system, or
- 2) by emailing the [Microsoft Word version](#) of the CWSRF PIF to CWSRF@twdb.texas.gov or the Microsoft Word Version of the DWSRF PIF to DWSRF@twdb.texas.gov.

PIFs submitted last year must be updated to be included in the SFY 2027 Intended Use Plan project priority lists. You may update your PIF in OLA.

ATTENTION: The release of the U.S. Census 2024 American Community Survey (ACS) 5-year estimates data, which will be used to determine an entity's Disadvantaged Community eligibility, has been delayed due to the federal government shutdown in the fall of 2025 and will not be available in OLA until early February 2026. Entities that are seeking Disadvantaged Community eligibility should complete all sections of their PIFs in OLA, except for the "Disadvantaged Community p. 2B" page, and keep their PIFs in "*In_Progress*" status. Once the 2024 ACS 5-year estimates data is available in OLA, the TWDB will send out an email notification to all email addresses associated with the PIFs in "*In_Progress*" status, notifying entities that the data is available and the PIFs can be completed and submitted.

For assistance in completing your PIF, watch the "[How to fill out a Project Information Form](#)" webinar and/or review the **SRF Project Information Form Guidelines** found on our website under Project Information Forms & Guidance.

The Clean and Drinking Water State Revolving Funds financial assistance programs help communities save money by providing cost-effective funding for wastewater and water infrastructure projects. Entities that use these programs achieve substantial savings by receiving below-market interest rates and, in some instances, principal forgiveness. Principal forgiveness may be available for entities that qualify as disadvantaged communities, small/rural disadvantaged systems, very disadvantaged communities, projects with first-time service or green components, very small systems, or urgent need situations.

For assistance regarding the Clean Water State Revolving Fund, please contact Moises Madrid at 512-475-1645. For assistance regarding the Drinking Water State Revolving Fund program, please contact Heather O'Keefe at 512-475-1835. You can also email the respective programs at CWSRF@twdb.texas.gov or DWSRF@twdb.texas.gov.
