

# Texas Well Report Submission and Retrieval System (TWRRSRS): Tips and Tricks

# TWRSRS – Tips & Tricks

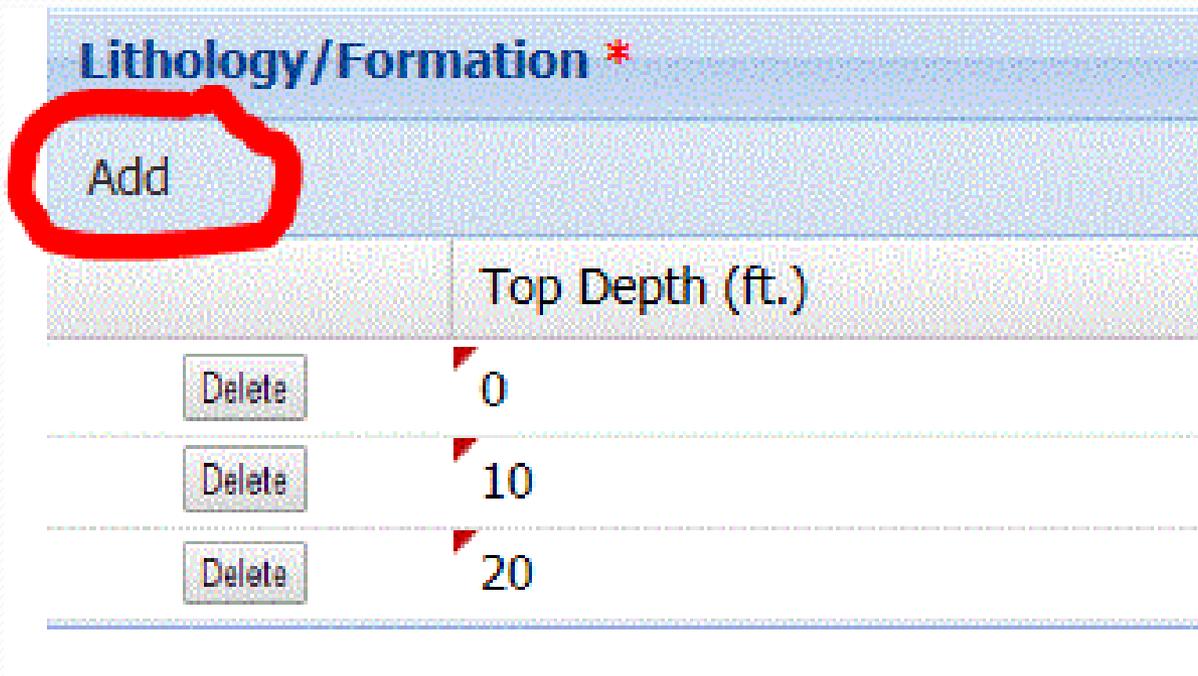

For a Well Report, the Plugged Back table is only for wells completed above the borehole depth

Diameter of Hole *			
Add		Decimal Conversion Chart	
	Diameter (in.)	Top Depth (ft.)	Bottom Depth (ft.)
<input type="button" value="Delete"/>	5	0	50

Plugged Back			
Add			
	Top Depth (ft.)	Bottom Depth (ft.)	Plugged Back Material
<input type="button" value="Delete"/>	40	50	Cement

# TWRSRS – Tips & Tricks

Use the Add button to add more rows to tables

The screenshot shows a software interface for managing data. At the top, there is a header bar with the text "Lithology/Formation \*". Below this header is a table with three rows. The first row is a header row with a column for "Top Depth (ft.)". The second, third, and fourth rows contain data with values 0, 10, and 20 respectively. Each data row has a "Delete" button to its left. The "Add" button, located in the top-left corner of the table area, is circled in red.

Lithology/Formation *	
Add	Top Depth (ft.)
Delete	0
Delete	10
Delete	20

# TWRSRS – Tips & Tricks

Casing and Seal Range: if above ground use negative numbers for Top Depth

Decimal Conversion Chart			
Schedule	Top Depth (ft.)	Bottom Depth (ft.)	Gauge/Sl... Size
	-2	50	

# TWRSRS – Tips & Tricks

Water Quality Questions: if 'No' selected for second question, the third should be 'No'

**Water Quality \***

Was there a chemical analysis made?:

Did you knowingly penetrate a strata which contains injurious constituents?:

Do you certify that while drilling, deepening, or otherwise altering the above described well, **injurious water or constituents was encountered** and the landowner or person having the well drilled was informed that such well must be completed or plugged in such a manner as to avoid injury or pollution?:
