Economically Distressed Areas Program (EDAP) – Background

For over 25 years, the Texas Water Development Board (TWDB), state officials, and the citizens of Texas have been working together to provide affordable funding for essential basic water and wastewater infrastructure throughout the state. With the development of the Economically Distressed Areas Program (EDAP), in conjunction with other TWDB programs, approximately over \$1.018 billion in grants and loans have been made available to fund the planning, acquisition, design, and construction of such projects.

EDAP provides statewide financial assistance to disadvantaged political subdivisions, cities, counties, water districts and non-profit water supply corporations in the form of a grant, or a combination grant/loan. EDAP projects provide drinking water and wastewater treatment to Texas residents previously without service, and improve existing utility systems that do not meet minimum state standards.

In 1989, the 71st Legislature passed comprehensive legislation that established the EDAP and the Model Subdivision Rules (MSR) for the regulation of future residential subdivisions. These laws focused on two major goals: delivering water and wastewater services to meet the immediate health and safety concerns and stopping the proliferation of sub-standard subdivisions through tougher enforcement of development standards.

The 81st Legislature in 2009 enacted further legislation which allowed funds from the EDAP program to pay for first-time water and wastewater connections for homes in areas served by the program.

Throughout its history, the EDAP has involved collaborative funding with state and federal agencies, such as the Environmental Protection Agency, the United States Department of Agriculture-Rural Development, the Texas Department of Agriculture, North American Development Bank, the Border Environmental Cooperation Commission, and local governments including counties, cities, water and wastewater utilities, and non-profit groups.

EDAP Report Updates

Since the previous quarter:

- No new Active projects.
- City of Groveton, Project # 61314 moved from Active to Completed status on 5/22/2018.

Map of Texas Counties

- Counties with EDAP Funding
- Counties with Approved MSRs

Note: All counties listed as containing EDAP funded projects have also adopted Model Subdivision Rules (MSRs).

Index of EDAP Projects by County

BEE COUNTY	GRIMES COUNTY	Kerr County	Del Rio (Val Verde Park Estates)
Bee County	Bedias	Upper Guadalupe River Authority	Val Verde County Planning

1. The above figures reflect actual funds expended and current, active commitments. EDAP Funding amounts include EDAP related programs: Colonia Wastewater Treatment Assistance Program, Colonia Self Help, Community Self Help, and Research and Planning.

2. "Estimated residents with service available" avoids double counting population when served by subsequent projects. For example, residents served by a water project and counted once are not counted a second time when served by a later wastewater project. Some projects in planning and/or design phases may not have an estimated population served.
