8. CASH CONTRIBUTION TO THE STUDY

\$0.00

9. LIST SOURCE OF CASH CONTRIBUTION, EXPLANATION OF SOURCE OF LOCAL CASH CONTRIBUTION

Not Applicable

10. TOTAL GRANT FUNDS REQUESTED FROM THE TEXAS WATER DEVELOPMENT BOARD

\$137,390

11. DETAILED STATEMENT OF THE PURPOSE FOR WHICH THE MONEY WILL BE USED

To prepare and publish the 2011 Region B Regional Water Plan.

12. DETAILED DESCRIPTION OF WHY STATE FUNDING ASSISTANCE IS NEEDED

To fulfill the requirements of Senate Bill 3, 80th Legislative Session and subsequent rules promulgated by the Texas Water Development Board as described in 31 TAC Chapter 357 and 358. Additionally, the plan is charged with addressing specific requirements of Chapter 16 of the Texas Water Code (TWC). If the state is to retain the leading role in long-range planning for adequate water resources to meet the public needs as they occur, then the state must provide sufficient funding and coordination of the effort on behalf of its people. Meeting the people's need for adequate water resource is or should be one of the State's highest priorities because it yields the greatest public benefit. Without adequate state funding (and support), the smaller cities and rural communities will suffer the greatest.

13. IDENTIFY POTENTIAL SOURCES AND AMOUNTS OF FUNDING AVAILABLE FOR IMPLEMENTATION OF VIABLE SOLUTIONS RESULTING FROM PROPOSED PLANNING

The majority of capital funding in Region B typically comes from local sources in the form of municipal type bond issues supported by net revenue pledges from the sale of water and taxes. Detailed infrastructure financing information was included in Chapter 9 of the 2006 Region B Regional Water Plan.

13. IDENTIFY POTENTIAL SOURCES AND AMOUNTS OF FUNDING AVAILABLE FOR IMPLEMENTATION OF VIABLE SOLUTIONS RESULTING FROM PROPOSED PLANNING (continued)

During this revision process and as the proposed planning is completed, Chapter 9 will be subsequently amended to reflect any changes in the sources or amounts of capital requirements ascertained during the course of study. Likewise, should new strategies be deemed necessary, they too will be included in Chapter 9 of the 2011 Region B Regional Water Plan.

Task 9 will specifically address the potential sources and estimated amounts of funding available for each of the identified water management strategies for the ensuing planning period.

II. PLANNING INFORMATION

14. DETAILED SCOPE OF WORK FOR PROPOSED PLANNING

The Scope of Work that follows includes the basic tasks necessary to meet the Texas Water Development Board's *Attachment C, Guidance for Preparation of Scope of Work for Regional Water Planning*.

TASK 1: PLANNING AREA DESCRIPTION

17. TIME SCHEDULE FOR COMPLETING THE DETAILED SCOPE OF WORK

The proposed revision to the 2006 Regional Water Plan for Area B as detailed in the scope of work will follow the attached **Task Timeline** marked as **Schedule 1** and contained in the Appendix.

18. SPECIFIC DELIVERABLES FOR EACH TASK IN THE SCOPE OF WORK

All updated chapters to reflect 2011 Region B Plan in compliance with TWDB requirements are included in the Detailed Scope of Work.

19. METHOD OF MONITORING STUDY PROGRESS

Monitoring of the plan revision development will be conducted through periodic progress review meetings of the Regional Water Planning Group – Area B (RWPG-B) and/or its designated political subdivision and the contracted professional consultant. The Executive Committee of the RWPG-B will function as administrative oversight for recommending actions on the part of the RWPG-B, as may be needed. A Technical Advisory Committee, comprised of five members of the RWPG-B, will review technical or complex matters that may arise during planning process to provide assistance with conflict resolution and maintaining adequate momentum. All meetings conducted by the RWPG-B shall be open to the public in accordance with Chapter 551 of the Texas Government Code, as amended.

20. QUALIFICATIONS AND DIRECT EXPERIENCE OF PROPOSED PROJECT STAFF

The Red River Authority's staff and management have been actively engaged in water resource planning, management, protection, conservation and reclamation within the Red River Basin for forty-nine years. The Authority currently maintains a competent staff of professionals capable of managing each of the tasks described in this detailed scope of work.

Authority staff proposes to supervise and review all work performed by the professional consulting group engaged to conduct the technical analysis and prepare the report throughout the course of this planning study. The consultant group has been qualified and engaged by contract to provide their technical and scientific expertise in accordance with a scope of work designed to ensure compliance with the described outputs of each task and directives of the TWDB Rules, 31 TAC Chapter 357. Biggs and Mathews, Inc. of Wichita Falls will be the principal consultant in charge of project management in association with Alan Plummer and Associates, Inc. of Austin, and Freese and Nichols, Inc. of Fort Worth.

III. WRITTEN ASSURANCES

DUPLICATION OF EXISTING PROJECTS

The proposed revision and/or update of the *Regional Water Plan for Region B* described in this application does not duplicate any existing planning projects. The project will incorporate available information from existing plans, including the *2006 Region B Regional Water Plan* developed in the last round of regional water planning. The project is responsive to guidance and requirements developed by the Texas Water Development Board for the development of a regional water plan.

DILIGENTLY PURSUE VIABLE SOLUTIONS IDENTIFIED AND DETERMINE POTENTIAL SOURCES OF FUNDING FOR THEIR IMPLEMENTATION

The Red River Authority of Texas will diligently pursue the implementation of all viable solutions identified through the proposed planning, to the extent that the Authority's involvement is consistent with the regional plan, appropriate and adequate funding is available. The Authority will encourage all participants in the regional planning area to pursue economically viable solutions and assist as necessary with determining potential funding sources for implementation of approved water management strategies for Region B.

MARKETS
NEW YORK (AP) — Wall Street retreated Tuesday after a disappointing reading on consumer sentiment punctured some of the optimism of the past two sessions.

The market was reminded of the economy's ongoing problems when the Conference Board, a business-backed research group, said its Consumer Confidence Index plunged to 64.5 in March from a revised 76.4 in February. The reading — a five-year low — was far below the 73.0 expected by analysts surveyed by Thomson/IFR.

Stocks also fell after a report on the housing sector showed a further pull-back in home prices. The Standard & Poor's/Case-Shiller index shows U.S. home prices declined 11.4 percent in January from a year earlier.

Tight credit markets, rising prices and declining housing prices have consumers worrying about a recession. And, the stock market is in turn worrying that consumers will cut back their spending and further weaken the economy.

"We've had two pieces of bad economic news and that was enough to turn the market lower," said Peter Cardillo, chief market economist at New York-based brokerage house Avalon Partners. "What is troubling is that consumer confidence took a plunge, and I think we're going to see consumer spending weaken as we go forward."

In addition, he said some profit-taking was to be expected on Wall Street after a two-day rally sent the Dow Jones industrial average up nearly 450 points. Stocks had charged higher in the days following the Federal Reserve's decision to aid investment banks and orchestrate a buyout deal for a near-collapsed Bear Stearns Cos.

In late morning trading, the Dow fell 74.82, or 0.60 percent, to 12,473.82.

Broader indexes also fell. The Standard & Poor's 500 index dropped 7.11, or 0.53 percent, to 1,342.77; and the Nasdaq fell 0.79, or 0.03 percent, to 2,325.96.

Bond prices rose. The yield on the benchmark 10-year Treasury note fell to 3.48 percent from 3.55 percent late Monday. The dollar was mixed against other major currencies, while gold prices rose.

Concerns about consumer sentiment also drove down the price of oil, which in recent days remained over \$100 a barrel. Light, sweet crude \$1.19 to \$99.67 a barrel on the New York Mercantile Exchange.

The mood on Main Street is key as consumer spending makes up about
