---

Good afternoon:

Attached is the draft standard language/boilerplate contract for the 4th round of regional water planning. We are distributing this to the RWPG political subdivisions for their review and for use as supporting documentation to receive authorization to execute a contract with the TWDB. It is our understanding that the Boards or Councils of some of the political subdivisions would prefer to see a draft contract document prior to authorizing execution of a contract for the development of the next regional water plans.

TWDB staff will be requesting authorization to negotiate and execute contracts from our Board at their June 22, 2011 meeting. Immediately thereafter, we will be contacting regions to develop final contract packages. Our deadline to execute contracts by both parties is August 31, 2011.

Just as a reminder, I had sent an email May 31 with the draft contract scope of work and technical guidance document. If you have any questions or comments on these documents, we are requesting input by next Monday, June 13, 2011 by 5:00 p.m.

thank you,  
Temple
