**THIRD AMENDED SCOPE OF WORK – ADDITION OF TASKS 12 AND 13**

**Task 13 - Prepare and submit prioritization of projects in the 2016 Regional Water Plan**

The objective of this task is to prioritize the projects in the 2016 regional water plan by applying the latest uniform standards developed by the HB 4 Stakeholder Committee and approved by the governing Board of TWDB. RWPGs shall use the latest TWDB-approved version of the uniform standards, as updated or clarified, available at the time of the draft or final prioritization submittal. These uniform standards will be available on the TWDB website. RWPGs must use an alphabetized **region-sponsor- strategy prioritization template** that will contain the recommended water management strategies in the 2016 regional water plan to be produced from the state water plan database (DB17). That template will contain all projects that the region must prioritize under this Task.

An alphabetized **region-sponsor- strategy prioritization template** will be produced from the state water plan database (DB17) containing the projects that the region must prioritize under this Task. The region-sponsor-strategy prioritization template will be based upon the recommended water management strategies in the 2016 regional water plan, as provided by the RWPG to TWDB in the state water plan database.

Work includes, but is not limited to, the following:

1. Applying all of the uniform standards to each project and filling in the prioritization template to be produced from the state water plan database.
2. Approval of submittal to TWDB of the draft and final prioritization templates at regular regional water planning group meetings.
3. Submission to TWDB of the completed draft and final prioritization templates in the original format and that displays each uniform standard score, for each project.
4. Addressing and responding to TWDB comments on the draft submission, as necessary.

**Deliverables:** A completed prioritization of projects submitted in the form of a filled-in region-sponsor-strategy prioritization template.

- a) A draft prioritization template shall be submitted to TWDB separately but along with the Initially Prepared Plan.
  - o TWDB will review and may issue comments on the prioritization template submittal.
- b) The RWPG shall address comments and submit the final prioritization template to TWDB separately but along with the final, adopted regional water plan.
