## Errata for 2010 Region B Regional Water Plan

September 24, 2010

The following statement is added to the fly sheet to Appendix C and is incorporated into the Region B Water Plan:

*There may be slight numerical differences between the TWDB online planning database and the printed regional water plan due to rounding associated with the regional water plan preparation and online data entry. In any and all instances where numbers in the regional water plan and the online planning database do not match, the data in the online planning database (DB12) shall take precedence over the associated number in the regional water plan for development of the State Water Plan."*

Add or replace the following entities and corresponding data in Attachment 4-5, Table of Summary of Recommended Strategies:
