

Texas Water Development Board

Annual Statewide Water Use - Updated June 12, 2015

Year	Total Population	Total Water Use (Acre Feet)*	Total Municipal Water Use (Acre Feet)	Average Municipal Gallons-Per-Capita-Daily (GPCD)	Average Residential Gallons-Per-Capita-Daily (GPCD) ¹
2013	26,448,194	14,466,872	4,223,485	143	84
2012	26,059,203	15,998,562	4,494,933	154	86
2011	25,674,075	18,123,662	4,967,415	173	101
2010	25,145,561	13,849,801	4,209,833	149	90
2009	24,782,302	15,471,177	4,175,266	150	89
2008	24,326,974	16,156,811	4,167,613	153	93
2007	23,904,380	15,440,445	4,345,467	162	N/A
2006	23,507,783	15,048,704	4,804,954	182	N/A
2005	22,859,968	15,023,604	4,527,688	177	N/A
2004	22,490,023	15,461,538	3,987,340	158	N/A
2003	22,130,231	15,123,960	4,033,923	163	N/A
2002	21,777,667	16,208,013	4,123,391	169	N/A
2001	21,325,024	16,204,386	4,191,547	175	N/A
2000	20,851,819	16,211,833	4,096,754	175	N/A

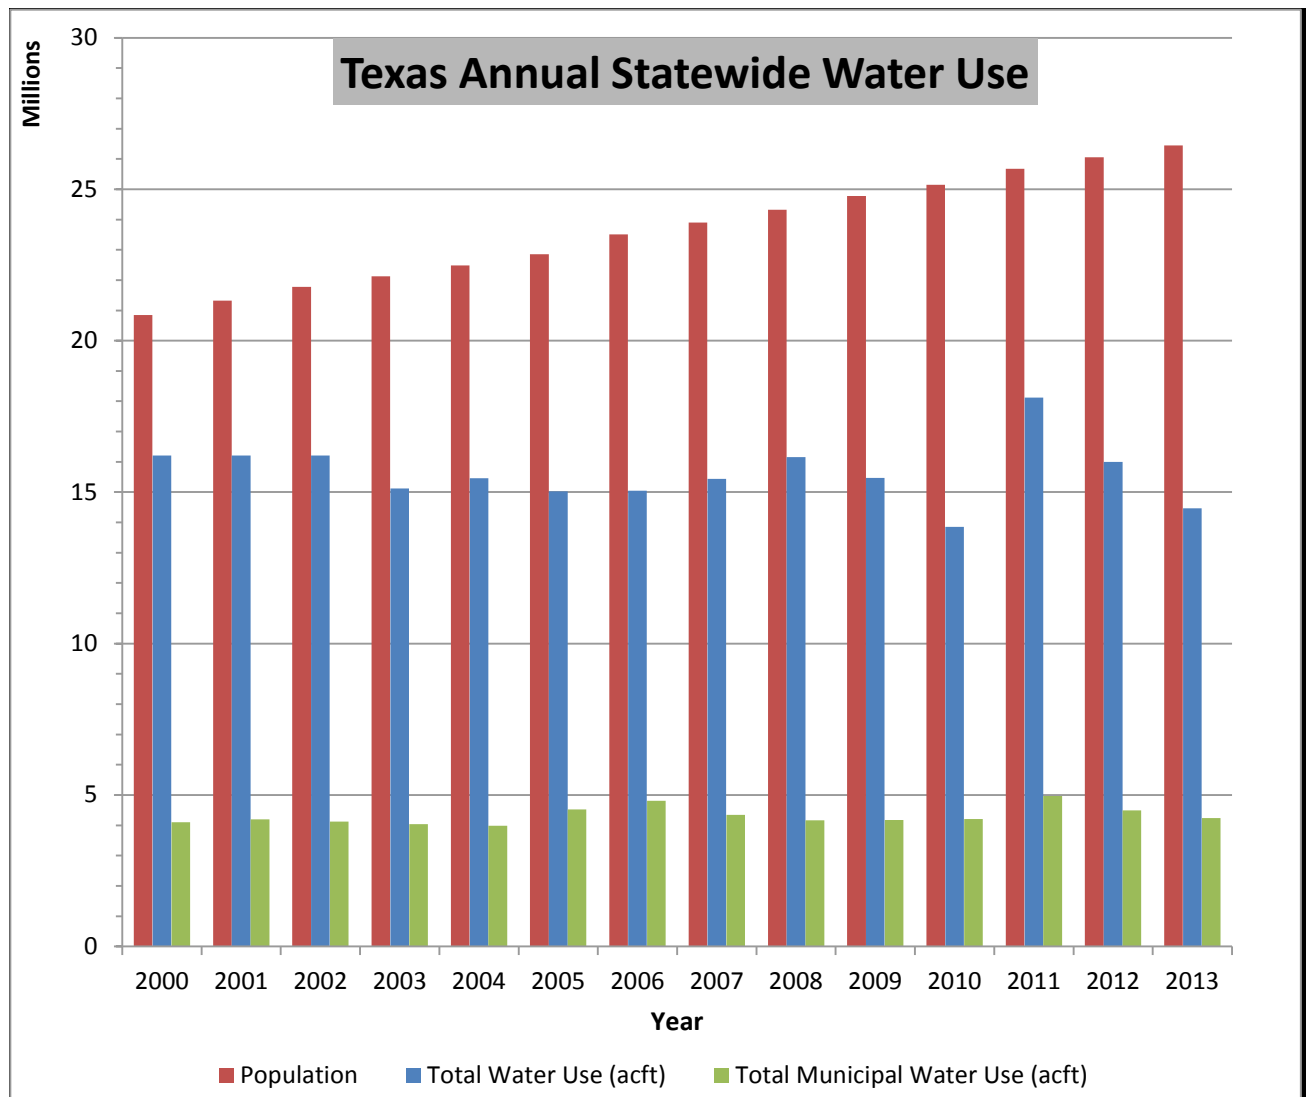

¹ The TWDB began to analyze residential water use beginning in 2007. Not all surveyed water systems have been able to report a residential (single-family and multi-family) water use volume, so the value presented is an average per-person residential water use of those systems that have been able to respond.

For questions regarding this data, please email Water Use Survey staff at Waterusesurvey@twdb.texas.gov or Kevin Kluge, Water Uses & Projections Manager at kevin.kluge@twdb.texas.gov

Texas Water Development Board

Annual Statewide Water Use - Updated June 12, 2015

* One Acre-Foot = 325,851 gallons
