

TEXAS WATER DEVELOPMENT BOARD

INDUSTRIAL Water Use Survey for End of Calendar Year December 31, 201

Deadline to return completed survey is **March 1, 201** , according to Chapter 31 in Texas Administrative Code (TAC) Section 358.

If necessary, you may need to turn on JavaScript. For guidance, refer to the end notes on the last pages of the survey form. For assistance, call **(512) 463-7952**

CONTACT INFORMATION

As listed in previous correspondence; please note any revisions or changes to the contact information:

SURVEY Number¹: _____ **County:** _____

Name of Industrial Facility: _____

Mailing Address: _____

City/State: _____ **Zip Code:** _____

Contact Name: _____ **Title:** _____

Email Address: _____ **Telephone Number:** _____

Please provide any additional comments or remarks below.

Please return completed survey to TWDB Water Use Survey Team:

Email waterusesurvey@twdb.texas.gov OR Fax (512) 936-0889

OR Mail to P.O. Box 13231 Austin, Texas 78711-3231

Pumped Groundwater (Self-Supplied)²

Did this system pump groundwater last year? Yes No

If no, go on to next page.

Volume of Water Intake in Gallons

Please provide the Intake information and volumes (in **GALLONS**) below for each Aquifer/County group of wells. If groundwater is pumped from more than 3 Aquifer/County combinations, please include a copy of this page with the additional groundwater sources. Do not enter comma separators or decimal points in monthly intakes. *Total volume automatically calculates.*

Month	Source 1	Source 2	Source 3
Aquifer from which groundwater was pumped			
County where groundwater was pumped			
Number of active wells			
January			
February			
March			
April			
May			
June			
July			
August			
September			
October			
November			
December			
TOTAL VOLUME gallons			
<i>Metered or Estimated</i> ³			
<i>Percent of Volume Treated Before Intake</i> ⁴	%	%	%
<i>Brackish/Saline</i> ⁵			

1 acre-foot = 325,851 gallons; 1 barrel = 42 gallons; 1 cubic foot = 7.48 gallons

Surface Water under a TCEQ Water Right (Self-Supplied)⁶

Did this system pump surface water under a TCEQ Water Right last year? Yes No

If no, go on to next page.

Volume of Water Intake in Gallons

Please provide the Intake information and volumes (in **GALLONS**) below for each Surface Water source **OR** for each TCEQ Water Right. (Multiple Water Rights from a single surface water source can be combined in reporting or reported separately.) If surface water is diverted from more than 3 surface water sources or from more than 3 Water Rights, please include a copy of this page with the additional surface water sources. Do not enter comma separators or decimal points in monthly intakes. *Total volume automatically calculates.*

Month	Source 1	Source 2	Source 3
Source River or Reservoir Name			
County where diversion took place			
TCEQ Water Right Number(s)			
January			
February			
March			
April			
May			
June			
July			
August			
September			
October			
November			
December			
TOTAL VOLUME gallons			
<i>Metered or Estimated</i> ⁷			
<i>Percent of Volume Treated Before Intake</i> ⁸	%	%	%
<i>Brackish/Saline</i> ⁹			
<i>Percent of Volume Not Returned</i> ¹⁰	%	%	%

1 acre-foot = 325,851 gallons; 1 barrel = 42 gallons; 1 cubic foot = 7.48 gallons

Purchased Water

Did this system purchase water last year? Yes No

If no, go on to next page.

Volume of Water Intake in Gallons

Please provide the Intake information and volumes (in **GALLONS**) below for water purchased. If water is purchased from more than 3 water providers, please include a copy of this page with the additional water purchases. If water is purchased from a provider and metered through more than one connection, then combine the metered volumes in reporting the purchase below. Do not enter comma separators or decimal points in monthly intakes. *Total volume automatically calculates.*

Month	Source 1	Source 2	Source 3
Name of Water Provider			
Type of water ¹¹			
Name of Source ¹²			
Source County			
January			
February			
March			
April			
May			
June			
July			
August			
September			
October			
November			
December			
TOTAL VOLUME gallons			
Metered or Estimated ¹³			
Percent of Volume Treated Before Intake ¹⁴	%	%	%
Brackish/Saline ¹⁵			

1 acre-foot = 325,851 gallons; 1 barrel = 42 gallons; 1 cubic foot = 7.48 gallons

Reuse\Treated Effluent (Self-Supplied or Purchased)

Did this system reuse treated effluent water last year? Yes No

If no, go on to next page.

Please enter the annual volume of wastewater effluent that was treated by the system with the purpose of reuse. Complete a column for each unique reuse water source. Please note that percentage(s) must total 100%.

REUSE	Source 1	Source 2	Source 3
Name of Water Source ¹⁶			
Treatment County ¹⁷			
If purchased, Seller ¹⁸			
Direct or Indirect ¹⁹			
If Indirect, TCEQ Water Right Number ²⁰			
TOTAL VOLUME gallons ²¹			
% Used for Industrial	%	%	%
% Used for Landscape	%	%	%
% Used for Agriculture	%	%	%
% Used for Other	%	%	%

1 acre-foot = 325,851 gallons; 1 barrel = 42 gallons; 1 cubic foot = 7.48 gallons

Water Sales to other Water Systems or Industrial Facilities

Did this system sale water to another water system or industry last year? Yes No
 If no, go on to next page.

Wholesale Water Sales to other Water Systems

If the facility sells water to public water systems, please complete the row for each sale. If the facility has more than 3 sales, please include a copy of this page with the additional sales.

WATER SYSTEM SALES	Buyer Name	Water Type ²² GW,SW,CS	Source Name ²³	Source County	Raw or Treated	TOTAL VOLUME gallons ²⁴
Sale 1						
Sale 2						
Sale 3						

Water Sales to Industrial Production Facilities²⁵

If the facility sells water to industrial facilities (mining, manufacturing, or power generation), please complete the row for each sale. If facility has more than 3 sales, please include a copy of this page with the additional sales. If volume sold is less than 10 million gallons, then combine industry sale volumes.

INDUSTRY SALES	Buyer Name ²⁶	Water Type ²⁷ GW,SW,CS	Source Name ²⁸	Source County	Raw or Treated	TOTAL VOLUME Gallons ²⁹
Sale 1						
Sale 2						
Sale 3						

Facility Information

Please fill out each blank in this section.

What is your North American Industrial Classification System (NAICS) Code? ³⁰	
What is the total number of employees at this facility?	
Was electric power generated at this facility (for in-plant use or sale)?	
*What is the latitude of this facility? ³¹	
*What is the longitude of this facility? ³²	

*If unknown, conduct a web search "lat-long locator" for a free online tool to determine the facility's latitude/longitude.

Please provide any additional comments or remarks below.

¹ The survey number is a unique number assigned by Texas Water Development Board (TWDB) to this industrial facility.

² If the system pumps groundwater, please provide those volumes in gallons by aquifer. If your system is able to provide volumes by individual wells, please use our Online data-entry application located at, <<http://www.twdb.state.tx.us/waterplanning/waterusesurvey/survey/online.asp>>.

³ Was the pumped groundwater volume either Metered or Estimated? Select either "Metered" or "Estimated".

⁴ What percent of the volume was treated prior to intake? May include raw water purchases (0% treated), treated water purchases (100%), or a combination.

⁵ Was the water brackish or saline (seawater) prior to treatment? Brackish water is between 1,000 and 10,000 milligrams per liter (mg/L) of total dissolved solids (TDS). Saline water is considered water having greater than 10,000 mg/L of TDS. Select either "Yes" if brackish/saline, or "No" if not brackish/saline.

⁶ If the system diverts or receives surface water from an owned or contracted Texas Commission on Environmental Quality (TCEQ) water right, please provide those **diverted volumes that enter the system**. The monthly diversion volumes for each water right must be included here, in addition to the reported required by TCEQ or Water-master office.

⁷ Was the surface water volume diverted either Metered or Estimated? Select either "Metered" or "Estimated".

⁸ What percent of the volume was treated prior to intake? May include raw water purchases (0% treated), treated water purchases (100%), or a combination.

⁹ Was the water brackish or saline (seawater) prior to treatment? Brackish water is between 1,000 and 10,000 milligrams per liter (mg/L) of total dissolved solids (TDS). Saline water is considered water having greater than 10,000 mg/L of TDS. Select either "Yes" if brackish/saline, or "No" if not brackish/saline.

¹⁰ If surface water was used in an industrial process, such as once-through cooling, where a significant portion of the water was returned to the original water source with minimal treatment; what PERCENT of the diverted volume was not returned to the original source? (This is similar to the volume CONSUMED in the annual Water Right Report to the TCEQ).

¹¹ Select the type of water purchased: Groundwater, Surface Water or Combined Source (ground and surface water).

¹² If ground water, please enter the aquifer name; if surface water, enter the river or reservoir name.

¹³ Was the purchased water volume either Metered or Estimated? Select either "Metered" or "Estimated".

¹⁴ What percent of the volume was treated prior to intake? May include raw water purchases (0% treated), treated water purchases (100%), or a combination.

¹⁵ Was the water brackish or saline (seawater) prior to treatment? Brackish water is between 1,000 and 10,000 milligrams per liter (mg/L) of total dissolved solids (TDS). Saline water is considered water having greater than 10,000 mg/L of TDS. Select either "Yes" if brackish/saline, or "No" if not brackish/saline.

¹⁶ What is the name of the water source prior to water use and treatment?

¹⁷ In which county was the effluent treated for reuse?

¹⁸ If the reuse water was purchased, what is the Seller's name?

¹⁹ Direct reuse is the use of reclaimed water that is piped directly from the wastewater treatment plant to the place where it is used. Indirect reuse is the use of reclaimed water by discharging to a water supply source, such as surface water or groundwater, where it blends with the water supply and may be further purified before being removed for non-potable or potable uses.

²⁰ If indirect reuse water is blended with a surface water source, what is the TCEQ Water Right or Adjudication number?

²¹ Total annual reuse water volume in gallons.

²² Where GW is Ground Water, SW is Surface Water, and CS is Combined Source (ground water and surface water).

²³ If ground water, please enter the aquifer name; if surface water, enter the river or reservoir name.

²⁴ Please enter the Total Volume sold in gallons.

²⁵ Please list the buyers **only when the volumes are greater than 10 million gallons**. These should be sales to production facilities, not administrative offices. If sold to a significant number of MINING or MANUFACTURING facilities where each sale is less than 10 million gallons, please sum the sales together and list as "Other Mining" or "Other Manufacturing".

²⁶ Enter name of each Industrial Customer.

²⁷ Where GW is Ground Water, SW is Surface Water, and CS is Combined Source (ground water and surface water).

²⁸ If ground water, please enter the aquifer name; if surface water, enter the river or reservoir name.

²⁹ Please enter the Total Annual Volume for each sale in gallons.

³⁰ If the facility's NAIC code is unknown, refer to < <http://www.census.gov/eos/www/naics/>> to determine.

³¹ Decimal degrees format, for example: 30.2741 degrees North.

³² Decimal degrees format, for example, -97.7404 degrees West.
