SUBJECT: City of Terrell Project No. 73807 Request for Reinstatement and Extension of Commitment

ACTION REQUESTED
Approve by resolution a request from the City of Terrell (Kaufman County) to amend Texas Water Development Board Resolution No. 18-124, as amended by Resolution 19-029, to reinstate the $780,000 commitment amount that expired in October 2020 and add it to the $2,510,000 commitment expiring October 2022, for a total commitment of $3,290,000, to finance wastewater system improvements from the Clean Water State Revolving Fund program.

BACKGROUND
In October 2018, the Texas Water Development Board (TWDB), through Resolution 18-124, approved a commitment from the Clean Water State Revolving Fund (CWSRF) in the amount of $24,550,000 to the City of Terrell (City) for the acquisition, design, and construction of wastewater infrastructure improvements that included treatment plant modifications and line replacements. Additionally, in March 2019, the commitment was amended by Resolution No. 19-029 to change the CWSRF commitment to a multi-year commitment with four separate closings.
KEY ISSUES
The City closed on the first commitment of $5,215,000 in 2019. In 2020, the City requested a reduction of $780,000 to the original $6,780,000 commitment amount and closed on the second commitment of $6,000,000. This allowed the City to resolve budget issues before closing on the third commitment in October 2021. The City has completed construction on the wastewater treatment plant Phase I, is in construction for Phase II, and has identified several material and labor cost increases.

The City is scheduled to close on the fourth commitment (LM22882) in early 2022. In order to align with scheduled project costs, the City is requesting to reinstate the commitment amount of $780,000 that expired in 2020 and add it to the existing October 2022 commitment amount. This will modify its multi-year commitment to increase the fourth commitment amount by $780,000 to better align future costs with the remaining construction contracts. The requested amendment does not change the total amount of funding as shown in the below table.

RECOMMENDATION
The Executive Administrator recommends amending TWDB Resolution No. 18-124, as amended by Resolution 19-029, to reinstate the commitment amount of $780,000 that expired in 2020 and add it to the existing October 2022 commitment amount. This will allow the City to better align the project’s annual funding needs. The requested amendment does not change the total amount of financing to the City and will address project cost increases.

18. the Obligations must include a provision prohibiting the City from using the proceeds of this loan in a manner that would cause the Obligations to become "private activity bonds" within the meaning of § 141 of the Internal Revenue Code of 1986, as amended (Code) and the Treasury Regulations promulgated thereunder (Regulations);

19. the Obligations must provide that no portion of the proceeds of the loan will be used, directly or indirectly, in a manner that would cause the Obligations to be "arbitrage bonds" within the meaning of § 148(a) of the Code and Regulations, including to acquire or to replace funds which were used, directly or indirectly, to acquire Nonpurpose Investments (as defined in the Code and Regulations) which produce a yield materially higher than the yield on the TWDB's bonds that are issued to provide financing for the loan (Source Series Bonds), other than Nonpurpose Investments acquired with:

a. proceeds of the TWDB's Source Series Bonds invested for a reasonable temporary period of up to three (3) years after the issue date of the Source Series Bonds until such proceeds are needed for the facilities to be financed;

The City may, however, to the extent permitted by law, commingle Gross Proceeds of its loan with other money of the City, provided that the City separately accounts for each receipt and expenditure of such Gross Proceeds and the obligations acquired therewith;

b. calculate the Rebate Amount, as defined in the Code and Regulations, with respect to its loan, not less frequently than each Computation Date, in accordance with rules set forth in § 148(f) of the Code, § 1.148-3 of the Regulations, and the rulings thereunder. The City shall maintain a copy of such calculations for at least six years after the final Computation Date;

c. as additional consideration for the making of the loan, and in order to induce the making of the loan by measures designed to ensure the excludability of the interest on the TWDB's Source Series Bonds from the gross income of the owners thereof for federal income tax purposes, pay to the United States the amount described in paragraph (b) above within 30 days after each Computation Date;

d. exercise reasonable diligence to assure that no errors are made in the calculations required by paragraph (b) and, if such error is made, to discover and promptly to correct such error within a reasonable amount of time thereafter, including payment to the United States of any interest and any penalty required by the Regulations;

21. the Obligations must include a provision prohibiting the City from taking any action that would cause the interest on the Obligations to be includable in gross income for federal income tax purposes;

22. the Obligations must provide that the City will not cause or permit the Obligations to be treated as “federally guaranteed” obligations within the meaning of § 149(b) of the Code;
23. the transcript must include a No Arbitrage Certificate or similar Federal Tax Certificate setting forth the City’s reasonable expectations regarding the use, expenditure and investment of the proceeds of the Obligations;

24. the transcript must include evidence that the information reporting requirements of § 149(e) of the Code will be satisfied. This requirement may be satisfied by filing an IRS Form 8038 with the Internal Revenue Service. In addition, the applicable completed IRS Form 8038 or other evidence that the information reporting requirements of § 149(e) have been satisfied must be provided to the Executive Administrator within fourteen (14) days of closing. The Executive Administrator may withhold the release of funds for failure to comply;

25. the Obligations must provide that neither the City nor a related party thereto will acquire any of the TWDB’s Source Series Bonds in an amount related to the amount of the Obligations to be acquired from the City by the TWDB;

State Revolving Fund Conditions

26. the City shall submit outlay reports with sufficient documentation on costs on a quarterly or monthly basis in accordance with TWDB outlay report guidelines;

27. the Obligations must include a provision stating that all laborers and mechanics employed by contractors and subcontractors for projects shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality in accordance with the Davis-Bacon Act, and the U.S. Department of Labor’s implementing regulations. The City, all contractors, and all sub-contractors shall ensure that all project contracts mandate compliance with Davis-Bacon. All contracts and subcontracts for the construction of the project carried out in whole or in part with financial assistance made available as provided herein shall insert in full in any contract in excess of $2,000 the contracts clauses as provided by the TWDB;

28. the Obligations must include a provision stating that the City shall provide the TWDB with all information required to be reported in accordance with the Federal Funding Accountability and Transparency Act of 2006, Pub. L. 109-282, as amended by Pub. L. 110-252. The City shall obtain a Data Universal Numbering System (DUNS) Number and shall register with System for Award Management (SAM), and maintain current registration at all times during which the Obligations are outstanding;

29. the Obligations shall provide that all loan proceeds will be timely and expeditiously used, as required by 40 CFR § 35.3135(d), and also shall provide that the City will adhere to the approved project schedule;

30. the Obligations must contain a covenant that the City will abide by all applicable construction contract requirements related to the use of iron and steel products
produced in the United States, as required by 31 TAC § 375.3, 33 U.S.C. § 1388, and related State Revolving Fund Policy Guidelines;

31. the Obligations must contain language detailing compliance with the requirements set forth in 33 U.S.C. § 1382 et seq. related to maintaining project accounts containing financial assistance for planning, design, acquisition, or construction, as applicable, in accordance with generally accepted accounting principles (GAAP). These standards and principles also apply to the reporting of underlying infrastructure assets;

32. the City shall submit, prior to the release of funds, a schedule of the useful life of the project components prepared by an engineer as well as a certification by the applicant that the average weighted maturity of the obligations purchased by the TWDB does not exceed 120% of the average projected useful life of the project, as determined by the schedule;

Clean Water State Revolving Fund Conditions

33. prior to or at closing, the City shall pay a 1.75% origination fee to the TWDB calculated pursuant 31 TAC Chapter 375 and the applicable Intended Use Plan;

34. at the TWDB’s option, the TWDB may fund the financial assistance under this Resolution with either available cash-on-hand or from bond proceeds. If the financial assistance is funded with available cash-on-hand, the TWDB reserves the right to change the designated source of funds to bond proceeds issued for the purpose of reimbursing funds used to provide the financial assistance approved in this Resolution;

Pledge Conditions For The Loan

35. the Obligations must contain a provision that provides as follows:

a. if system revenues are actually on deposit in the Interest and Sinking Fund in advance of the time when ad valorem taxes are scheduled to be levied for any year, then the amount of taxes which otherwise would have been required to be levied and collected may be reduced to the extent and by the amount of revenues then on deposit in the Interest and Sinking Fund; or

b. if surplus revenues are based upon budgeted amounts:

i. the Obligations must include a requirement that the City transfer and deposit in the Interest and Sinking Fund each month an amount of not less than 1/12th of the annual debt service on the Obligations until the amount on deposit in the Interest and Sinking Fund equals the amount required for annual debt service on the Obligations; further, that the ordinance authorizing the issuance of the Obligations must include a requirement that the City shall not transfer any funds from the City’s
pledged system revenues to any fund other than the Interest and Sinking Fund until such time as an amount equal to the annual debt service on the Obligations for the then-current fiscal year has been deposited in the Interest and Sinking Fund;

ii. the Obligations must include a requirement that for each year the Obligations are outstanding, and prior to the time taxes are to be levied for such year, the City shall establish, adopt, and maintain an annual budget that provides for either the monthly deposit of sufficient surplus pledged revenues and/or tax revenues, the monthly deposit of any other legally available funds on hand at the time of the adoption of the annual budget, or a combination thereof, into the Interest and Sinking Fund for the repayment of the Obligations; and

iii. the Obligations must include a requirement that the City shall at all times maintain and collect sufficient rates and charges in conjunction with any other legally available funds so that after payment of the costs of operating and maintaining the system, it produces revenues in an amount not less than 1.10 times debt service requirements of all outstanding Obligations of the City and other obligations of the City which are secured in whole or in part by the pledged revenues, for which the City is budgeting the repayment of such Obligations, or the City shall provide documentation which evidences the levy and collection of an ad valorem tax rate dedicated to the Interest and Sinking Fund, in conjunction with any other legally available funds, sufficient for the repayment of debt service requirements.

Texas Water Development Board
Attention: Joe Koen

Reference: Projects CWSRF 73807 and DWSRF 62808

The City of Terrell (the “City”) received two commitments from the Texas Water Development Board: one for $24.550 million for funding through the Clean Water SRF and one for funding of $7.385 million through the Drinking Water SRF. To date, the City has taken down $11.215 million in CWSRF funding and $1.700 million in DWSRF funds.

In order to manage the projects and associated debt issuances, the City reviews its utility CIP annually to determine the amount of funding needed. Last year the City took down $6.000 million in CWSRF funding (73807, LM20882), which was $780,000 lower than initially planned. The City requests that TWDB approve rolling this amount of $780,000 in CWSRF funding into the LM22882 planned borrow of $2.510 million, which will increase the total scheduled award for LM 22882 to $3.290 million schedule for closing prior to 10-31-22. We recognize this will require TWDB Board approval so we request confirmation of when this will be scheduled for Board action.

After review of our current projects and the current award schedule for CWSRF and DWSRF this year, we anticipate closing on the scheduled loans prior to 10-31-21. The loans include:

- CWSRF 73807, LM21882 - $10,045,000
- DWSRF 62808, LM21881 - $1,535,000
