

PROJECT FUNDING REQUEST

BOARD DATE: March 13, 2025

Team Manager: David Firgens

ACTION REQUESTED

Consider approving by resolution a request from the City of Weimar (Colorado County) for \$5,620,000 in financial assistance consisting of \$565,000 in financing and \$5,055,000 in grant funding from the Rural Water Assistance Fund for planning, design, acquisition, and construction of water system improvements.

STAFF RECOMMENDATION

Approve No Action

BACKGROUND

The City of Weimar (City) is located 65 miles west of Houston. The City provides water and wastewater services to a population of approximately 2,076 residents and approximately 1,085 water and 1,024 wastewater connections.

PROJECT NEED AND DESCRIPTION

The City of Weimar (City) has limited groundwater and is required to blend it due to the presence of iron, manganese and hardness. The distribution system requires frequent dewatering and flushing for repairs and maintenance. In addition, the City is above its threshold for water loss due to inaccurate billing.

The City proposes to add a 350 gallons per minute water well and to replace its SCADA system, 4,800 linear feet of water lines, and 1,000 manual meters with automated meters to address its apparent water loss.

PROJECT SCHEDULE

Task	Schedule Date
Closing	July 1, 2025
Engineering Feasibility Report Completion (End of Planning Phase)	November 30, 2025
Design Phase	October 30, 2026
Start of Construction	March 1, 2027
Construction Completion	December 29, 2028

KEY ISSUES

The City qualifies for \$5,055,000 in grant funding as an applicant with a population between 1,001 and 10,000 for a water loss mitigation project.

COMMITMENT PERIOD: SIX (6) MONTHS TO EXPIRE SEPTEMBER 30, 2025

The City is above its apparent water loss threshold. The proposed project includes installation of a smart metering system to improve water use accuracy and accountability. These improvements are expected to help the City mitigate its apparent water loss.

LEGAL/SPECIAL CONDITIONS

- Adopt water conservation plan
- Water rights certification
- Executed grant agreement

Risk Score: 2A

Audit Reviewed: FY 2023

Key Indicators

Indicator	Result	Benchmark
Population Growth, Average Annual 2010-2020	City: -0.35%	State: 1.49%
Top 10 Customers % of Total Revenue	19%	10-15%
Median Household Income as % of State	82%	100%
Days of Cash on Hand (3-year Average)	317 days	30-149 days
Net Fixed Assets/ Annual Depreciation	9 years	12-24 years
Debt Service Coverage Ratio	1.52x	1.10x
Debt-to-Operating Revenues	0.00	4.00-5.99x
Unemployment Rate (November 2024)	County: 3.50%	State: 4.20%
Working Capital Ratio	4.47	> 1.0

Key Risk Score Strengths

- Water system revenues are sufficient to cover the existing and proposed debt. System revenue has grown by approximately three percent annually over the past five years due to incremental rate increases and some increase in demand.
- A high working capital ratio provides the City with ample resources to cover short-term liabilities and shows a strong liquidity position.
- The City's days of cash on hand is above the benchmark, indicating the City can pay its operating expenses with the cash it has available

Key Risk Score Concerns

- The City's population has declined over the past ten years; additionally, the 2026 Region K Regional Water Plan projections estimate that the City's population will to decrease by six percent from 2030 to 2050.

RATES AND CHARGES

Average Residential Use	Gallons/Month	Current Rates	Projected Rates	Current Household Cost Factor	Projected Household Cost Factor
Water	5,200	\$29.50	\$29.50	1.35	1.35
Wastewater	3,133	\$32.50	\$32.50		

TAXES

	2024 Tax Year Rate	Max Projected Tax Rate (Year 2025)	Maximum Allowable Rate	3-Year Avg Current Tax Collections	Assessed Valuation
Maintenance & Operation	\$0.2222	\$0.2222	\$1.50	98%	\$245,684,134
Interest & Sinking	\$0.0324	\$0.0324			
Total Tax Rate	\$0.2546	\$0.2546			

Cost Savings

Based on a 30-year maturity schedule and current interest rates, the City could save approximately \$164,623 over the life of the financing. The City is also saving \$5,055,000 in grant funding.

A RESOLUTION OF THE TEXAS WATER DEVELOPMENT BOARD
APPROVING AN APPLICATION FOR FINANCIAL ASSISTANCE TO
CITY OF WEIMAR
FROM THE RURAL WATER ASSISTANCE FUND
IN AN AMOUNT OF
\$5,620,000 THROUGH THE PROPOSED PURCHASE OF
\$565,000 CITY OF WEIMAR, TEXAS COMBINATION TAX AND
SURPLUS REVENUE CERTIFICATES OF OBLIGATION, PROPOSED SERIES 2025
AND
EXECUTION OF A GRANT AGREEMENT IN THE AMOUNT OF \$5,055,000

(25 - __)

Recitals:

The City of Weimar (City), located in Colorado County, filed an application for financial assistance in the amount of \$5,620,000, to finance certain water/wastewater system improvements, identified as Project No. 21857.

The City seeks financial assistance from the Texas Water Development Board (TWDB) in the amount of \$5,620,000 through the TWDB's purchase of \$565,000 City of Weimar, Texas Combination Tax and Surplus Revenue Certificates of Obligation, Proposed Series 2025 (Obligations) and execution of a Grant Agreement in the amount of \$5,055,000, all as is more specifically set forth in the application and in recommendations of the TWDB's staff.

The City has offered a pledge of ad valorem taxes and surplus net revenue of the City's combined utility systems as sufficient security for the repayment of the Obligations.

The commitment is approved for funding under the TWDB's pre-design funding option, and initial and future releases of funds are subject to 31 TAC § 363.16, 363.43, and 365.23.

The Board hereby authorizes the transfer of \$5,620,000 from the Texas Water Fund to the Rural Water Assistance Fund, as authorized by Texas Water Code § 15.504(a), to finance the Project.

In accordance with Texas Water Code § 15.995, the TWDB has considered all matters required by law and in particular the following:

1. The needs of the area to be served by the project, the benefit of the project to the area, the relationship of the project to the overall statewide water needs, and the relationship of the project to the approved regional and state water plans.
2. The availability of revenue to the City from all sources for the ultimate repayment of the cost of the project, including all interest.

Findings:

1. The public interest is served by state assistance for the project, in accordance with Texas Water Code § 15.995(d).
2. The revenue or taxes pledged by the City will be sufficient to meet all the Obligations assumed by the City during the succeeding period of not more than 50 years in accordance with Texas Water Code § 15.995(d).
3. The City has submitted a proposed program of water conservation for the more efficient use of water that will meet reasonably anticipated local needs and conditions and that incorporates practices, techniques or technology prescribed by the Texas Water Code and TWDB's rules.
4. The TWDB has approved a regional water plan for the region of the state that includes the area benefiting from the project and the needs to be addressed by the project will be addressed in a manner that is consistent with the approved regional and state water plans, as required by Texas Water Code § 16.053(j).
5. A current water audit required by Texas Water Code § 16.0121 and 31 TAC § 358.6 has been completed by the City and filed with the TWDB in accordance with Texas Water Code § 16.053(j).

NOW, THEREFORE, based on these findings, the TWDB resolves as follows:

A commitment is made by the TWDB to the City of Weimar for financial assistance in the amount of \$5,620,000 from the Rural Water Assistance Fund through a transfer from the Texas Water Fund to be evidenced by the TWDB's purchase of \$565,000 City of Weimar, Texas Combination Tax and Surplus Revenue Certificates of Obligation, Proposed Series 2025 and the execution of a Grant Agreement in the amount of \$5,055,000. This commitment will expire September 30, 2025.

The commitment is conditioned as follows:

Standard Conditions:

1. The commitment is contingent on a future sale of bonds by the TWDB or on the availability of funds on hand.
2. The commitment is contingent upon the City's continued compliance with all applicable laws, rules, policies, and guidance (as these may be amended from time to time to adapt to a change in law, in circumstances, or any other legal requirement), including but not limited to 31 TAC Chapter 363 and 365.
3. The Obligations and Grant Agreement must contain a provision that the TWDB may exercise all remedies available to it in law or equity, and any provision of the Obligations and Grant Agreement that restricts or limits the TWDB's full exercise of these remedies shall be of no force and effect.
4. Loan proceeds and Grant funds are public funds and, as such, the Grant Agreement and Obligations must include a provision requiring that these proceeds shall be held

at a designated state depository institution or other properly chartered and authorized institution in accordance with the Public Funds Investment Act, Government Code, Chapter 2256, and the Public Funds Collateral Act, Government Code, Chapter 2257.

5. Loan proceeds and Grant funds shall not be used by the City when sampling, testing, removing, or disposing of contaminated soils and/or media at the project site. The Obligations and Grant Agreement shall include an environmental indemnification provision wherein the City agrees to indemnify, hold harmless and protect the TWDB from any and all claims, causes of action or damages to the person or property of third parties arising from the sampling, analysis, transport, storage, treatment and disposition of any contaminated sewage sludge, contaminated sediments and/or contaminated media that may be generated by the City, its contractors, consultants, agents, officials and employees as a result of activities relating to the project to the extent permitted by law.
6. Before closing, and if not previously provided with the application, the City shall submit executed contracts for engineering, and, if applicable, financial advisor, and bond counsel contracts for the project that are satisfactory to the Executive Administrator. Fees to be reimbursed under the contracts must be reasonable in relation to the services performed under the contract and acceptable to the Executive Administrator.
7. Before closing, when any portion of the financial assistance is to be held in escrow or in trust, the City shall execute an escrow agreement or trust agreement, approved as to form and substance by the Executive Administrator, and shall submit that executed agreement to the TWDB.
8. The Executive Administrator may require that the City execute a separate financing agreement in form and substance acceptable to the Executive Administrator.
9. This commitment is contingent upon the issuance of a written approving opinion of the Attorney General of the State of Texas stating that all of the requirements of the laws under which said Obligations were issued have been complied with; that said Obligations were issued in conformity with the Constitution and laws of the State of Texas; and that said Obligations are valid and binding obligations of the City.
10. The Obligations must provide that the Obligations can be called for early redemption only in inverse order of maturity, and on any date beginning on or after the first interest payment date which is 10 years from the dated date of the Obligations, at a redemption price of par, together with accrued interest to the date fixed for redemption.
11. The City, or an obligated person for whom financial or operating data is presented to the TWDB in the application for financial assistance either individually or in combination with other issuers of the City's Obligations or obligated persons, will, at a minimum, regardless of the amount of the Obligations, covenant to comply with requirements for continuing disclosure on an ongoing basis substantially in the manner required by Securities and Exchange Commission (SEC) in 17 CFR

§ 240.15c2-12 (Rule 15c2-12) and determined as if the TWDB were a Participating Underwriter within the meaning of such rule, such continuing disclosure undertaking being for the benefit of the TWDB and the beneficial owners of the City's Obligations, if the TWDB sells or otherwise transfers such Obligations, and the beneficial owners of the TWDB's bonds if the City is an obligated person with respect to such bonds under SEC Rule 15c2-12.

12. The Obligations must contain a provision requiring the City to levy a tax or maintain and collect sufficient rates and charges to produce system revenues in an amount necessary to meet the debt service requirements of all outstanding obligations and to maintain the funds established and required by the Obligations.
13. The Obligations must include a provision requiring the City to use any loan proceeds from the Obligations that are determined to be surplus proceeds remaining after completion of the project and after completion of a final accounting in a manner approved by the Executive Administrator.
14. Before closing, the City shall submit documentation evidencing the adoption and implementation of sufficient system rates and charges or, if applicable, the levy of an interest and sinking tax rate sufficient for the repayment of all system debt service requirements.
15. The City must immediately notify TWDB, in writing, of any suit against it by the Attorney General of Texas under Texas Penal Code § 1.10(f) (related to federal laws regulating firearms, firearm accessories, and firearm ammunition).
16. The Obligations must provide that the City will comply with all applicable TWDB laws and rules related to the use of the financial assistance.
17. The Obligations must provide that the City must comply with all conditions as specified in the final environmental finding of the Executive Administrator when issued, including the standard emergency discovery conditions for threatened and endangered species and cultural resources.
18. The Obligations must contain a provision requiring the City to maintain insurance coverage sufficient to protect the TWDB's interest in the project.
19. The Obligations must provide that the City will submit annually an audit prepared by a certified public accountant in accordance with generally accepted auditing standards.
20. The Obligations must contain a covenant that the City will abide by all applicable construction contract requirements related to the use of iron and steel products and manufactured goods produced in the United States, as required by Texas Water Code § 17.183.

Conditions Related to Tax-Exempt Status:

21. The City's bond counsel must prepare a written opinion that states that the interest on the Obligations is excludable from gross income or is exempt from federal income taxation. Bond counsel may rely on covenants and representations of the City when rendering this opinion.
22. The City's bond counsel opinion must also state that the Obligations are not "private activity bonds." Bond counsel may rely on covenants and representations of the City when rendering this opinion.
23. The Obligations must include a provision prohibiting the City from using the proceeds of this loan in a manner that would cause the Obligations to become "private activity bonds" within the meaning of § 141 of the Internal Revenue Code of 1986, as amended (Code), and the Treasury Regulations promulgated thereunder (Regulations).
24. The Obligations must provide that no portion of the proceeds of the loan will be used, directly or indirectly, in a manner that would cause the Obligations to be "arbitrage bonds" within the meaning of § 148(a) of the Code and Regulations, including to acquire or to replace funds which were used, directly or indirectly, to acquire Nonpurpose Investments (as defined in the Code and Regulations) which produce a yield materially higher than the yield on the TWDB's bonds that are issued to provide financing for the loan (Source Series Bonds), other than Nonpurpose Investments acquired with:
 - a. proceeds of the TWDB's Source Series Bonds invested for a reasonable temporary period of up to three (3) years after the issue date of the Source Series Bonds until such proceeds are needed for the facilities to be financed;
 - b. amounts invested in a bona fide debt service fund, within the meaning of § 1.148-1(b) of the Regulations; and
 - c. amounts deposited in any reasonably required reserve or replacement fund to the extent such amounts do not exceed the least of maximum annual debt service on the Obligations, 125% of average annual debt service on the Obligations, or 10 percent of the stated principal amount (or, in the case of a discount, the issue price) of the Obligations.
25. The Obligations must include a provision requiring the City take all necessary steps to comply with the requirement that certain amounts earned on the investment of gross proceeds of the Obligations be rebated to the federal government in order to satisfy the requirements of § 148 of the Code. The Obligations must provide that the City will:
 - a. account for all Gross Proceeds as defined in the Code and Regulations, (including all receipts, expenditures, and investments thereof) on its books of account separately and apart from all other funds (and receipts, expenditures, and investments thereof) and retain all records of such accounting for at least

six years after the final Computation Date. The City may, however, to the extent permitted by law, commingle Gross Proceeds of its loan with other money of the City, provided that the City separately accounts for each receipt and expenditure of such Gross Proceeds and the obligations acquired therewith;

- b. calculate the Rebate Amount, as defined in the Code and Regulations, with respect to its loan, not less frequently than each Computation Date, in accordance with rules set forth in § 148(f) of the Code, § 1.148-3 of the Regulations, and the rulings thereunder. The City shall maintain a copy of such calculations for at least six years after the final Computation Date;
 - c. as additional consideration for the making of the loan, and in order to induce the making of the loan by measures designed to ensure the excludability of the interest on the TWDB's Source Series Bonds from the gross income of the owners thereof for federal income tax purposes, pay to the United States the amount described in paragraph (b) above within 30 days after each Computation Date; and
 - d. exercise reasonable diligence to assure that no errors are made in the calculations required by paragraph (b) and, if such error is made, to discover and promptly to correct such error within a reasonable amount of time, thereafter, including payment to the United States of any interest and any penalty required by the Regulations.
26. The Obligations must include a provision prohibiting the City from taking any action that would cause the interest on the Obligations to be includable in gross income for federal income tax purposes.
27. The Obligations must provide that the City will not cause or permit the Obligations to be treated as "federally guaranteed" obligations within the meaning of § 149(b) of the Code.
28. The transcript must include a No Arbitrage Certificate or similar Federal Tax Certificate setting forth the City's reasonable expectations regarding the use, expenditure and investment of the proceeds of the Obligations.
29. The transcript must include evidence that the information reporting requirements of § 149(e) of the Code will be satisfied. This requirement may be satisfied by filing an IRS Form 8038 with the Internal Revenue Service. In addition, the applicable completed IRS Form 8038 or other evidence that the information reporting requirements of § 149(e) have been satisfied must be provided to the Executive Administrator within fourteen (14) days of closing. The Executive Administrator may withhold the release of funds for failure to comply.
30. The Obligations must provide that neither the City nor a related party thereto will acquire any of the TWDB's Source Series Bonds in an amount related to the amount of the Obligations to be acquired from the City by the TWDB.

31. Before closing, the City shall provide certification that the average weighted maturity of the Obligations purchased by the TWDB does not exceed 120% of the average reasonably expected economic life of the Project.

The Following Conditions Must Be Included in the Grant Agreement:

32. The Grant Agreement must provide that the City must comply with all conditions as specified in the final environmental finding of the Executive Administrator when issued, including the standard emergency discovery conditions for threatened and endangered species and cultural resources.
33. The Grant Agreement must provide that the City will not begin construction for a portion of the Project until the environmental finding has been issued for that portion of the Project.
34. The Grant Agreement must contain a provision requiring the City to maintain insurance coverage sufficient to protect the TWDB's interest in the project.
35. The Grant Agreement must include a provision requiring a final accounting to be made of the total sources and authorized use of Project funds within 60 days of the completion of the Project.
36. The Grant Agreement must include a provision stating that the City shall return any grant funds that are determined to be surplus funds remaining after completion of the Project and completion of a final accounting, including any interest earned on the grant funds in a manner approved by the executive administrator.
37. The Grant Agreement must contain a provision stating that the City shall abide by all applicable construction contract requirements related to the use of iron and steel products produced in the United States, as required by Texas Government Code, Chapter 2252, Subchapter G.
38. Before release of funds for the relevant services, and if required under the TWDB's financial assistance program and if not previously provided with the application, the City shall submit executed contracts for engineering and, if applicable, financial advisor and legal services, for the Project that are satisfactory to the Executive Administrator. Fees to be reimbursed under the contracts must be reasonable in relation to the services performed, reflected in the contract, and acceptable to the Executive Administrator.
39. Before closing, when any portion of financial assistance is to be held in escrow or in trust, the City shall execute an escrow agreement or trust agreement, approved as to form and substance by the Executive Administrator, and shall submit that executed agreement to the TWDB.
40. Before release of funds for construction, the City must provide the TWDB with evidence that the necessary acquisitions of land, leases, easements and rights-of-way have been completed or, with prior approval by the executive administrator if all

acquisitions have not been completed, evidence that the applicant has the legal City necessary to complete the acquisitions.

Pledge Conditions for the Loan:

41. The Obligations must contain a provision that provides as follows:
 - a. if system revenues are actually on deposit in the Interest and Sinking Fund in advance of the time when ad valorem taxes are scheduled to be levied for any year, then the amount of taxes which otherwise would have been required to be levied and collected may be reduced to the extent and by the amount of revenues then on deposit in the Interest and Sinking Fund; or
 - b. if surplus revenues are based upon budgeted amounts:
 - i. The Obligations must include a requirement that the City transfer and deposit in the Interest and Sinking Fund each month an amount of not less than 1/12th of the annual debt service on the Obligations until the amount on deposit in the Interest and Sinking Fund equals the amount required for annual debt service on the Obligations; further, that the ordinance authorizing the issuance of the Obligations must include a requirement that the City shall not transfer any funds from the City's pledged system revenues to any fund other than the Interest and Sinking Fund until such time as an amount equal to the annual debt service on the Obligations for the then-current fiscal year has been deposited in the Interest and Sinking Fund.
 - ii. The Obligations must include a requirement that for each year the Obligations are outstanding, and Before the time taxes are to be levied for such year, the City shall establish, adopt, and maintain an annual budget that provides for either the monthly deposit of sufficient surplus pledged revenues and/or tax revenues, the monthly deposit of any other legally available funds on hand at the time of the adoption of the annual budget, or a combination thereof, into the Interest and Sinking Fund for the repayment of the Obligations. and
 - iii. The Obligations must include a requirement that the City shall at all times maintain and collect sufficient rates and charges in conjunction with any other legally available funds so that after payment of the costs of operating and maintaining the system, it produces revenues in an amount not less than 1.10 times debt service requirements of all outstanding Obligations of the City and other obligations of the City which are secured in whole or in part by the pledged revenues, for which the City is budgeting the repayment of such Obligations, or the City shall provide documentation which evidences the levy and collection of an ad valorem tax rate dedicated to the Interest and Sinking Fund, in conjunction with any other legally available funds, sufficient for the repayment of debt service requirements.

Special Conditions:

42. Before closing, the City shall adopt and implement the water conservation program approved by the TWDB.
43. Before the release of funds for the costs of planning, engineering, architectural, legal, title, fiscal, or economic investigation, studies, surveys, or designs for that portion of a project that proposes surface water or groundwater development, the Executive Administrator must either issue a written finding that the City has the right to use the water that the project financed by the TWDB will provide or a written determination that a reasonable expectation exists that such a finding will be made before the release of funds for construction. and
44. Before the release of construction funds for that portion of a project that proposes surface water or groundwater development, the Executive Administrator must have issued a written finding that the City has the right to use the water that the project financed by the TWDB will provide.
45. Before closing, the City shall execute a Grant Agreement in a form and substance acceptable to the Executive Administrator.

APPROVED and ordered of record this, the 13th day of March 2025.

DEFINITIONS

Adopted refers to a water conservation plan that meets the minimum requirements of the water conservation plan rules and has been formally approved and adopted by the applicant's governing body.

Apparent losses are paper losses that occur when the water reaches a customer, but the volume is not accurately measured and/or recorded due to unauthorized consumption, customer meter inaccuracy, or billing system and collection data errors.

Approvable refers to a water conservation plan that substantially meets the minimum requirements of the water conservation plan rules but has not yet been adopted by the applicant's governing body.

Best Management Practices are voluntary efficiency measures that save a quantifiable amount of water, either directly or indirectly, and that can be implemented within a specific time frame.

GPCD means gallons per capita per day.

GCD means gallons per connection per day.

GMD means gallons per mile per day.

Infrastructure Leakage Index (ILI) is the current annual real loss divided by the unavoidable annual real loss (theoretical minimum real loss) and only applies to utilities with more than 3,000 connections and a connection density of more than 16 connections per mile. The **ILI** is recommended to be less than 3 if water resources are greatly limited and difficult to develop, between 3 and 5 if water resources are adequate to meet long-term needs but water conservation is included in long-term water planning, and between 5 and 8 if water resources are plentiful, reliable, and easily extracted. The **ILI** is recommended as a bench marking tool, but until there is increased data validity of the variables used in the calculation, the **ILI** should be viewed with care.

NA means not applicable.

Real losses are the physical losses, largely leakage, from the infrastructure: mains, valves, and storage tank overflows. Real loss constitutes background leakage (unreported and difficult to detect), unreported leakage (leaks that do not surface but could be detected), and reported leakage (leaks that often surface and those that are detected by the utility through leak detection).

Residential GPCD is the amount of residential water use (single and multi-family customer use) divided by the residential population divided by 365.

Total GPCD is the amount of total system input volume divided by the retail population divided by 365.

Total water loss is the sum of the apparent and real water losses.

Water loss is the difference between the input volume and the authorized consumption within a water system. Water Loss consists of real losses and apparent losses.

Water Loss GPCD is the amount of water loss divided by the retail population divided by 365.

Water Loss per Connection per Day Calculated as the water loss volume divided by the number service connections divided by 365. This indicator allows for reliable performance tracking in the water utility's efforts to reduce water losses. It replaces water loss percentage.

Water Loss Thresholds are levels of real and apparent water loss determined by the connection density of a retail public utility, at or above which a utility receiving financial assistance from the Texas Water Development Board must use a portion of that financial assistance to mitigate the utility's system water loss.

Wholesale Adjusted represents that some utilities provide large volumes of wholesale water to other providers that travel through the general distribution system, so a calculation has been established to adjust for that volume of wholesale water. These adjustments are only applicable for use in determining whether a utility meets or exceeds water loss thresholds in review of their application for financial assistance. These adjustments should not be used for performance tracking or benchmarking.

City of Weimar Colorado County
