

Site Visits – Is On Site Assistance Available?

Financial Compliance can make visits in person on site with borrowers or Online (e.g. Skype, Go to Meeting, etc.). This effort has proven to be highly successful in developing working relationships that can solve issues as a collaboration.

Site Visits may be initiated by Financial Compliance, or at the request of a borrower.

Site Visits can be formal in nature (e.g. public presentations to City Councils) or less formal (e.g. working meetings to fully discuss issues and reach consensus on next steps).
