Project Rating

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	No	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	No	0
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	Accepted	10
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	Yes	15
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	No	0
Sec. 212 - Does the project involve more stringent permit limitations?	No	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	% permitted capacity is ≥ 90% and proj. improves problem	30
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	Non-Priority 5b	20
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0

Texas Water Development Board
Clean Water State Revolving Fund Intended Use Plan
Project Information Form Rating Report

Sec. 319 - Does the project include stream bank restoration or contain elements of Low Impact Development, such as vegetated filter strips, bio-retention, rain gardens, or porous pavement?	No	0
Sec. 320 - Does the project restore, protect, and enhance coastal natural resources?	No	0
Sec. 320 - Does the project improve water quality?	No	0
Sec. 320 - Does the project enhance public access?	No	0
Sec. 320 - Does the project improve onshore infrastructure and environmental management?	No	0
Sec. 320 - Does the project mitigate erosion and stabilize shorelines?	No	0
Sec. 320 - Does the project educate the public on the importance of coastal natural resources?	No	0
All Proj. - In the past 5 years, has an asset management plan been adopted by the entity's governing body?	No	0
All Proj. - Is the entity planning to prepare an asset management plan as part of the proposed project?	No	0
All Proj. - Has asset management training been administered to the entity's governing body and employees?	No	0
All Proj. - Does the proposed project address specific targets, goals, or measures in a water conservation or drought contingency plan that has been adopted by the entity's governing body within the past 5 years?	No	0
All Proj. - Does the proposed project address specific goals in a system-wide or plant-wide energy assessment, audit, or optimization study that has been conducted within the past three years?	No	0
All Proj. - Does the proposed project implement elements contained in a state or regional water plan, integrated water resource management plan, regional facility plan, regionalization or consolidation plan, or TMDL implementation plan?	No	0
All Proj. - Entity qualifies as a disadvantaged community.	Yes	10

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	No	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	No	0
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	Yes	15
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	N/A	0
Sec. 212 - Does the project involve more stringent permit limitations?	N/A	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	% permitted capacity is ≥ 65% and < 75% and proj. improves problem	15
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	Non-Priority 5c	10
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0

Project Name: WWTP Capacity Expansion

Project Type POTW – Treatment

Project_Phase: Construction

Project Description: Construction of the expansion from 0.35 MGD to 0.7 MGD of the City's WWTP. The plant will be designed to meet more stringent discharge limits as set forth in the new TCEQ discharge permit. The design will also allow modulation between the new and old facilities as necessary for the treating of flows and diversion of plant effluent to either reuse irrigation or river discharge

	Start Date	Comp. Date	Phase Costs
Planning:			\$0.00
Acquisition:			\$0.00
Design:			\$0.00
Est. Construction:	8/31/2015	11/30/2016	\$9,050,000.00

Project Name: WWTP Improvements

Project Type POTW – Treatment

Project_Phase: Planning Acquisition & Design

Project Description: The City currently operates a facultative lagoon pond system under a discharge permit. The current pond system is having problems meeting current discharge permit parameters. The City is proposing to install an irrigation facility as well as the required appurtenances in order to irrigate their treated effluent. The City will also amend the TCEQ permit to be a no discharge permit.

	Start Date	Comp. Date	Phase Costs
Planning:			\$10,000.00
Acquisition:		6/1/2016	\$30,000.00
Design:			\$230,000.00
Est. Construction:	7/1/2016	1/1/2017	\$1,480,000.00

Green Project: No

Related PIFS: _____

Project Name: Katy Hockley North-Cypress Crk Reservoir

Project Type Nonpoint Source

Project_Phase: Planning Acquisition & Design

Project Description: Acquisition of 5,155 acres of land for a regional wetland bank, development of prairie grasslands and temp. flood storage during occasional inundation due to overflow; construction of a minor berm, generally less than 6 feet in height, for detaining water for up to six days in duration; excavation of a shallow channel to convey floodwaters to an outlet; development of a 500 foot wide, 7,000 feet wide greenway corridor along Bear Creek; and the temporary inundation of 5,755 acres of conservation land that are currently located within the 100 year floodplain.

	Start Date	Comp. Date	Phase Costs
Planning:			\$2,114,559.00
Acquisition:		6/15/2018	\$37,107,000.00
Design:			\$2,315,898.00
Est. Construction:	12/30/2015	12/30/2030	\$31,843,598.00

Green Project: Yes-Comb.

Green Amount: \$73,381,054.50

Project Rating

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	No	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	No	0
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	No	0
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	No	0
Sec. 212 - Does the project involve more stringent permit limitations?	No	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	No	0
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	Accepted	10

Clean Water State Revolving Fund Intended Use Plan
Project Information Form Rating Report

Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table). Priority 5a 40

Sec. 319 - Does the project include stream bank restoration or contain elements of Low Impact Development, such as vegetated filter strips, bio-retention, rain gardens, or porous pavement? Yes 30

Sec. 320 - Does the project restore, protect, and enhance coastal natural resources? No 0

Sec. 320 - Does the project improve water quality? No 0

Sec. 320 - Does the project enhance public access? No 0

Sec. 320 - Does the project improve onshore infrastructure and environmental management? No 0

Sec. 320 - Does the project mitigate erosion and stabilize shorelines? No 0

Sec. 320 - Does the project educate the public on the importance of coastal natural resources? No 0

All Proj. - In the past 5 years, has an asset management plan been adopted by the entity's governing body? No 0

All Proj. - Is the entity planning to prepare an asset management plan as part of the proposed project? No 0

All Proj. - Has asset management training been administered to the entity's governing body and employees? No 0

All Proj. - Does the proposed project address specific targets, goals, or measures in a water conservation or drought contingency plan that has been adopted by the entity's governing body within the past 5 years? No 0

All Proj. - Does the proposed project address specific goals in a system-wide or plant-wide energy assessment, audit, or optimization study that has been conducted within the past three years? No 0

All Proj. - Does the proposed project implement elements contained in a state or regional water plan, integrated water resource management plan, regional facility plan, regionalization or consolidation plan, or TMDL implementation plan? No 0

All Proj. - Entity qualifies as a disadvantaged community. No 0

Project Name: Jonathan Rogers WTP Conservation Storage

Project Type POTW – Treatment

Project_Phase: Planning & Design

Project Description: Planning, design, and construction of an approx. 3,000 ac-ft stormwater storage reservoir. The purpose of the project is to capture water from the Riverside Canal when flows exceed the quantity of water needed for municipal and irrigation purposes. The project is a water conservation and nonpoint source pollution control strategy intended to provide multiple benefits, including reduction of stormwater flows into Rio Grand Segment 2307. The project is also one component of an overall raw water conservation program for EPWU and the El Paso Co. Water Improvement District No. 1.

	Start Date	Comp. Date	Phase Costs
Planning:			\$170,000.00
Acquisition:			\$0.00

PIF #: 10604

Program: CWSRF

PPL Year: 2015

Related PIFS: 9829

Project Name: Hillside Terrace Collection System

Project Type Nonpoint Source

Project_Phase: Construction

Project Description: The proposed project includes the planning, acquisition, design, and construction of a centralized sewage construction system to connect all of the existing residential septic systems in the Hillside Terrace subdivision. The proposed collection system will discharge into a proposed lift station and will be pumped through a proposed force main that will discharge into the City of Buda's existing collection system. The sewage will then be conveyed to the City's existing treatment plant for processing. The subdivision is outside the City's water service area and is considered to be a nonpoint source contributor of pollution to the impaired water body of Plum Creek.

Project_Phase: Construction

Project Description: SAWS is completing design on \$21.5 million in sewer pipelines to replace or rehabilitate lines that have experienced sanitary sewer overflows. SAWS has developed a sewer pipeline asset management plan, and lines are prioritized by frequency of overflows. The most critical projects are rehabilitated first.

Project Name: Buck Creek PS Improvements

Project Type POTW – Collection

Project_Phase: Construction

Project Description: Supplement the existing screw pumps at the Buck Creek Pump Station (BCPS) with submersible pumps sized to eliminate the need for throttling flow from the 48-inch interceptor. The City's wastewater enters the BCPS via three main interceptors, one 48-inch interceptor and two 36-inch interceptors. The screw pumps have had difficulty in handling flow, especially during high flows due to wet weather events. The City has historically compensated for high flow events by using a large influent flow control gate to throttle the flow, which creates "storage" in the interceptor. The City has also constructed equalization storage at the BCPS. Properly sized submersible pumps will also eliminate the need for flow equalization during routine wet weather events.

Project Rating

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	No	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	Yes	11
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	Accepted	10
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	No	0
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	N/A	0
Sec. 212 - Does the project involve more stringent permit limitations?	No	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	N/A	0
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	Non-Priority 5b	20
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0
Sec. 319 - Does the project include stream bank restoration or contain elements of Low Impact Development, such as vegetated filter strips, bio-retention, rain gardens, or porous pavement?	No	0

Project Name: Reuse Planning & Design

Project Type POTW – Treatment

Project_Phase: Planning & Design

Project Description: Conduct a planning study to identify the potential and alternatives for providing reclaimed water to potential customers; and design improvements to the WWTP to make Class I effluent reuse feasible. Among alternatives are: pumping effluent to the proposed LCRA Lane City above-ground reservoir; pumping effluent directly to farmers/irrigators; and pumping effluent to a land-spreading site to enhance aquifer recharge. When implemented the City could eliminate discharge to Tres Palacios Creek.

PIF #: 10724

Program: CWSRF

PPL Year: 2015

Related PIFS: _____

Project Name: Force Main

Project Type POTW – Collection

Project_Phase: Planning & Design

Project Description: The City needs to replace two lift stations and install 6,000 feet of 8-inch force main. They anticipate using TDA grant funds for the lift stations, and using CWSRF funds for the force main.

	Start Date	Comp. Date	Phase Costs
Planning:			\$0.00
Acquisition:		2/1/2014	\$18,750.00
Design:			\$50,000.00
Est. Construction:	3/1/2015	9/1/2015	\$475,200.00

Green Project: No

Green Amount: \$0.00

Project Rating

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	N/A	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	No	0
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	No	0
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	No	0
Sec. 212 - Does the project involve more stringent permit limitations?	No	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	No	0
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0
Sec. 319 - Does the project include stream bank restoration or contain elements of Low Impact Development, such as vegetated filter strips, bio-retention, rain gardens, or porous pavement?	No	0

Texas Water Development Board
Clean Water State Revolving Fund Intended Use Plan
Project Information Form Rating Report

Sec. 320 - Does the project restore, protect, and enhance coastal natural resources?	No	0
Sec. 320 - Does the project improve water quality?	No	0
Sec. 320 - Does the project enhance public access?	No	0
Sec. 320 - Does the project improve onshore infrastructure and environmental management?	No	0
Sec. 320 - Does the project mitigate erosion and stabilize shorelines?	No	0
Sec. 320 - Does the project educate the public on the importance of coastal natural resources?	No	0
All Proj. - In the past 5 years, has an asset management plan been adopted by the entity's governing body?	No	0
All Proj. - Is the entity planning to prepare an asset management plan as part of the proposed project?	Yes	1
All Proj. - Has asset management training been administered to the entity's governing body and employees?	No	0
All Proj. - Does the proposed project address specific targets, goals, or measures in a water conservation or drought contingency plan that has been adopted by the entity's governing body within the past 5 years?	No	0
All Proj. - Does the proposed project address specific goals in a system-wide or plant-wide energy assessment, audit, or optimization study that has been conducted within the past three years?	No	0
All Proj. - Does the proposed project implement elements contained in a state or regional water plan, integrated water resource management plan, regional facility plan, regionalization or consolidation plan, or TMDL implementation plan?	No	0
All Proj. - Entity qualifies as a disadvantaged community.	Yes	10

Project Name: Wastewater Reuse System

Project Type POTW – Treatment

Project_Phase: Planning & Design

Project Description: Construct purple pipe from the City's WWTP to two city parks and ten city sports fields. The City recently upgraded their wastewater plant to produce Type I effluent. The system will serve to extend the capacity of the City's water plant, and help alleviate drought issues on the Highland Lakes.

	Start Date	Comp. Date	Phase Costs
Planning:			\$50,000.00
Acquisition:			\$0.00
Design:			\$200,000.00
Est. Construction:	10/1/2013	3/31/2014	\$1,035,000.00

Project Name: Reuse System Expansion

Project Type POTW – Treatment

Project_Phase: Planning & Design

Project Description: Expand the City's reclaimed water system to provide irrigation in City parks and to provide chill plant make-up water and irrigate athletic fields at Texas State University. The project will reduce withdrawals from the Edwards aquifer and the San Marcos River by replacing potable water used for the same purposes.

	Start Date	Comp. Date	Phase Costs
Planning:			\$288,176.00
Acquisition:			\$0.00
Design:			\$2,840,955.00
Est. Construction:	11/1/2014	8/1/2017	\$18,939,697.00

Green Project: Yes-CE

Green Amount: \$22,068,800.00

PPL Year: 2015

Related PIFS: 10097, 10098

Project Name: Lift Stations & Reuse System

Project Type POTW – Treatment

Project_Phase: Construction

Project Description: The project includes replacement of the City's main lift station that transports the raw sewage to the WWTP, addition of a screening system to the City's new main lift station, and the replacement of another existing sanitary sewer lift station located approximately at East 24th St and Humble Ave that has been identified by TCEQ as being in need of replacement. Due to ongoing drought in the area, the City is concerned with the long-term viability of its primary raw water source, Lake Cisco. To address the issue, the City proposes to add several new treatment processes to the City's WWTP, including a new mechanical secondary treatment process, filtration and disinfection processes to enhance the quality of the WWTP effluent, with the goal of permitting a new outfall west of the WWTP at Bernie Lake, which will begin supplementing Lake Cisco with additional raw water.

	Start Date	Comp. Date	Phase Costs

PPL Year: 2015

Related PIFS: _____

Project Name: Wastewater System Improvements

Project Type POTW – Treatment

Project_Phase: Planning & Design

Project Description: Effluent Polishing Wetlands & Direct Reuse

	Start Date	Comp. Date	Phase Costs
Planning:			\$131,140.00
Acquisition:			\$0.00
Design:			\$97,280.00
Est. Construction:	7/15/2014	12/15/2015	\$1,082,282.50

Green Project: Unknown

Green Amount: \$0.00

Project Rating

Criteria	Answer	Score
Sec. 212 - Is the work required by a schedule that is imposed by court order, EPA administrative order, TCEQ enforcement order, or participation in SSO Initiative?	No	0
Sec. 212 - Does the project involve extending service (centralized or alternative system) to populated areas of an existing developed community that are not served by a centralized collection system?	No	0
Sec. 212 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the project?	No	0
Sec. 212 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	Accepted	10
Sec. 212 - Will the project include innovative or alternative types of collection or treatment technology?	Yes	15
Sec. 212 - For stormwater projects that are required under an NPDES permit, will the proposed project treat or minimize urban stormwater pollution discharges using any of the following innovative approaches?	No	0
Sec. 212 - Does the project involve more stringent permit limitations?	No	0
Sec. 212 - Does the project result in regionalization? (See specific criteria)	No	0
Sec. 212 - Does the proposed project involve a facility that requires expansion of its hydraulic capacity or removal of extraneous flow?	No	0
Sec. 212 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	Priority 5a	40
Sec. 319 - Has a public health official found that a nuisance dangerous to public health and safety exists resulting from water supply and sanitation problems in the area to be served by the proposed project?	No	0
Sec. 319 - Does a threat exist to an aquifer or groundwater that may be impacted by the proposed project?	No	0
Sec. 319 - Is a water body impacted by the proposed project listed in a Watershed Protection Plan that is under development or has been accepted by the TCEQ or TSSWCB?	No	0
Sec. 319 - The proposed project impacts a water body that does not meet applicable water quality standards. (refer to water bodies listed as Category 4a, 5a, 5b, or 5c in the latest Watershed Action Planning Strategy Table).	No	0
Sec. 319 - Does the project include stream bank restoration or contain elements of Low Impact Development, such as vegetated filter strips, bio-retention, rain gardens, or porous pavement?	No	0
Sec. 320 - Does the project restore, protect, and enhance coastal natural resources?	No	0
