

Appendix 0 – TWDB Maps

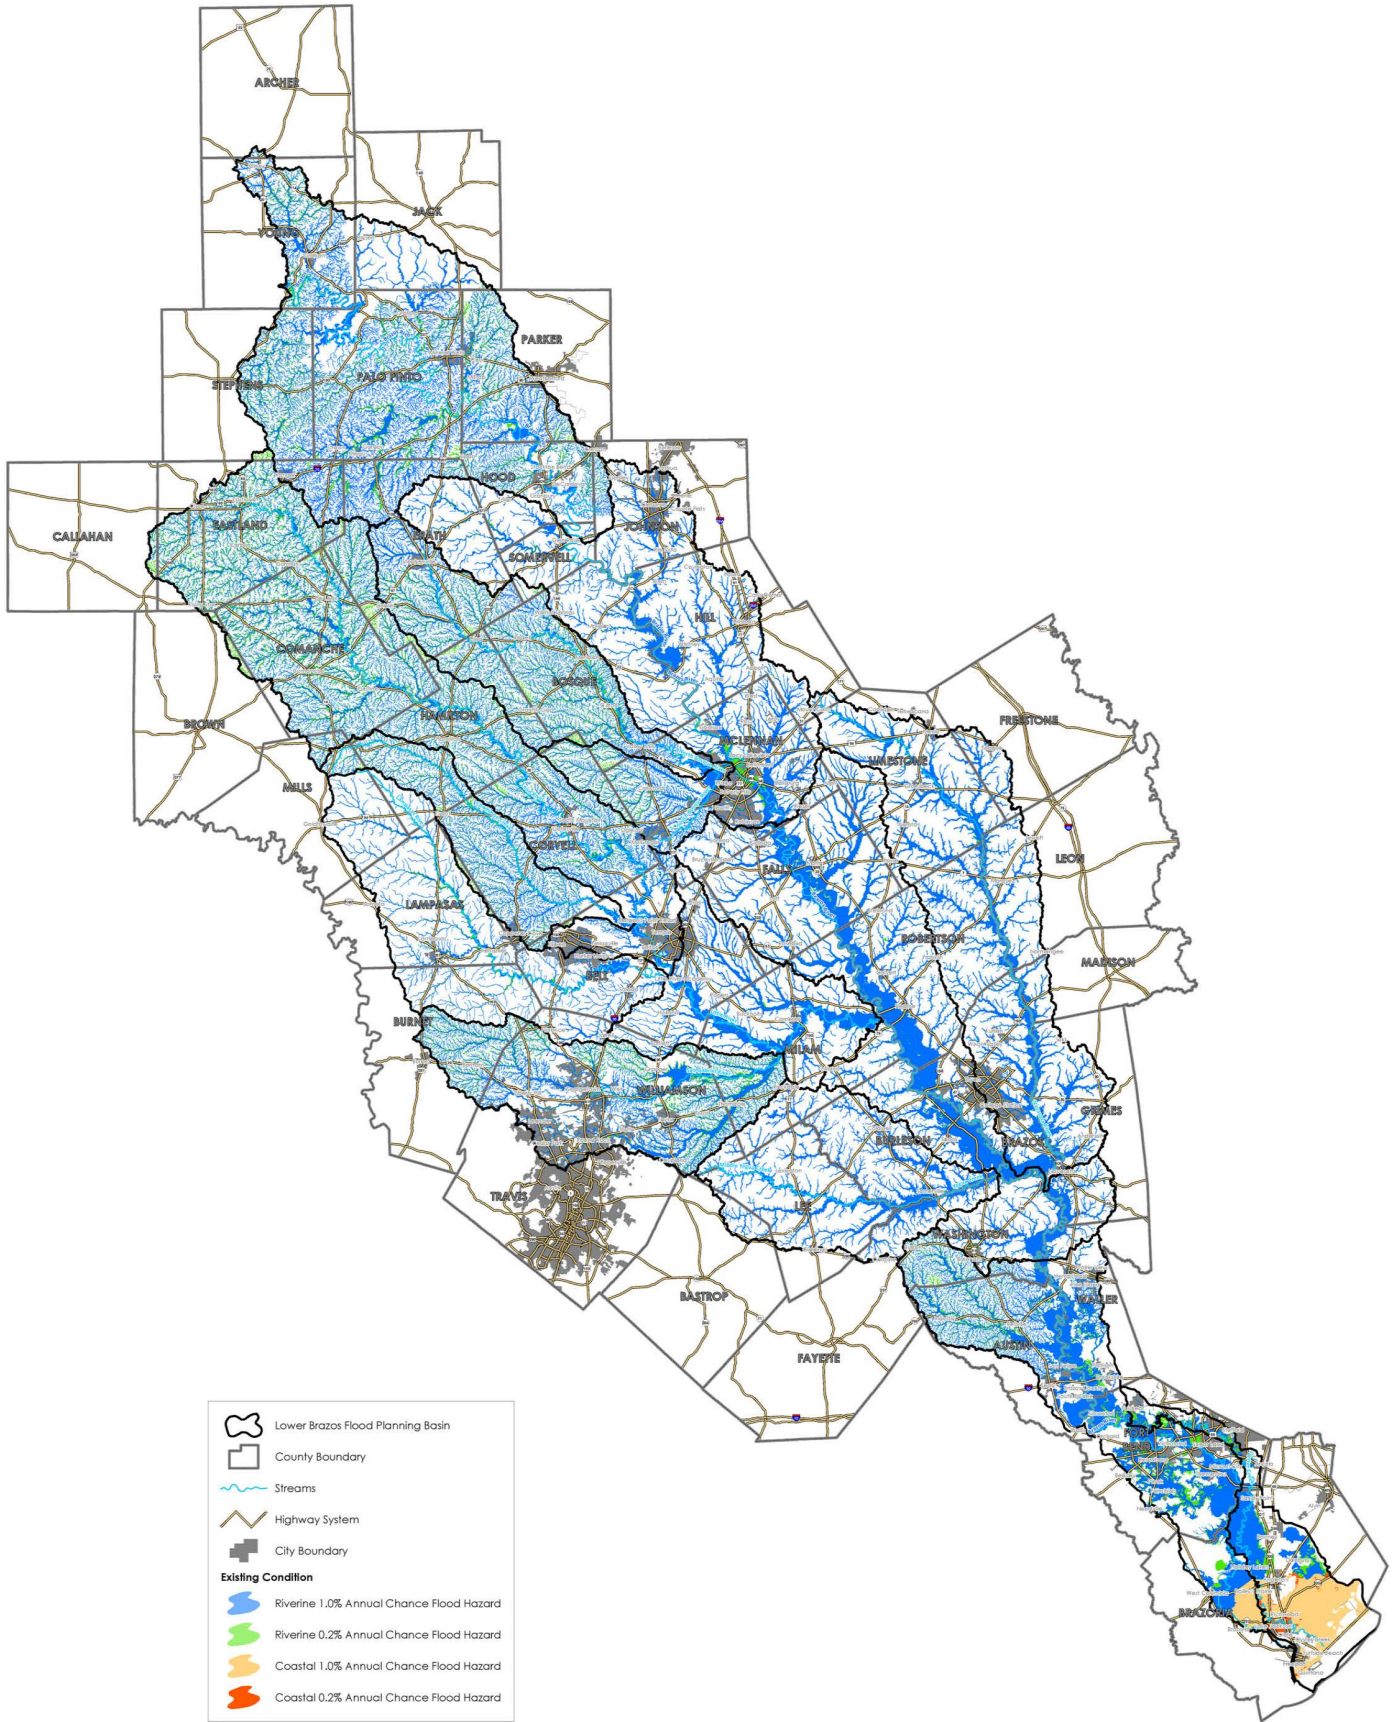

The FMP extents are represented by a heat map for clarity due to the overlap in extents. More details on these FMPs can be found in Appendix 1.2.

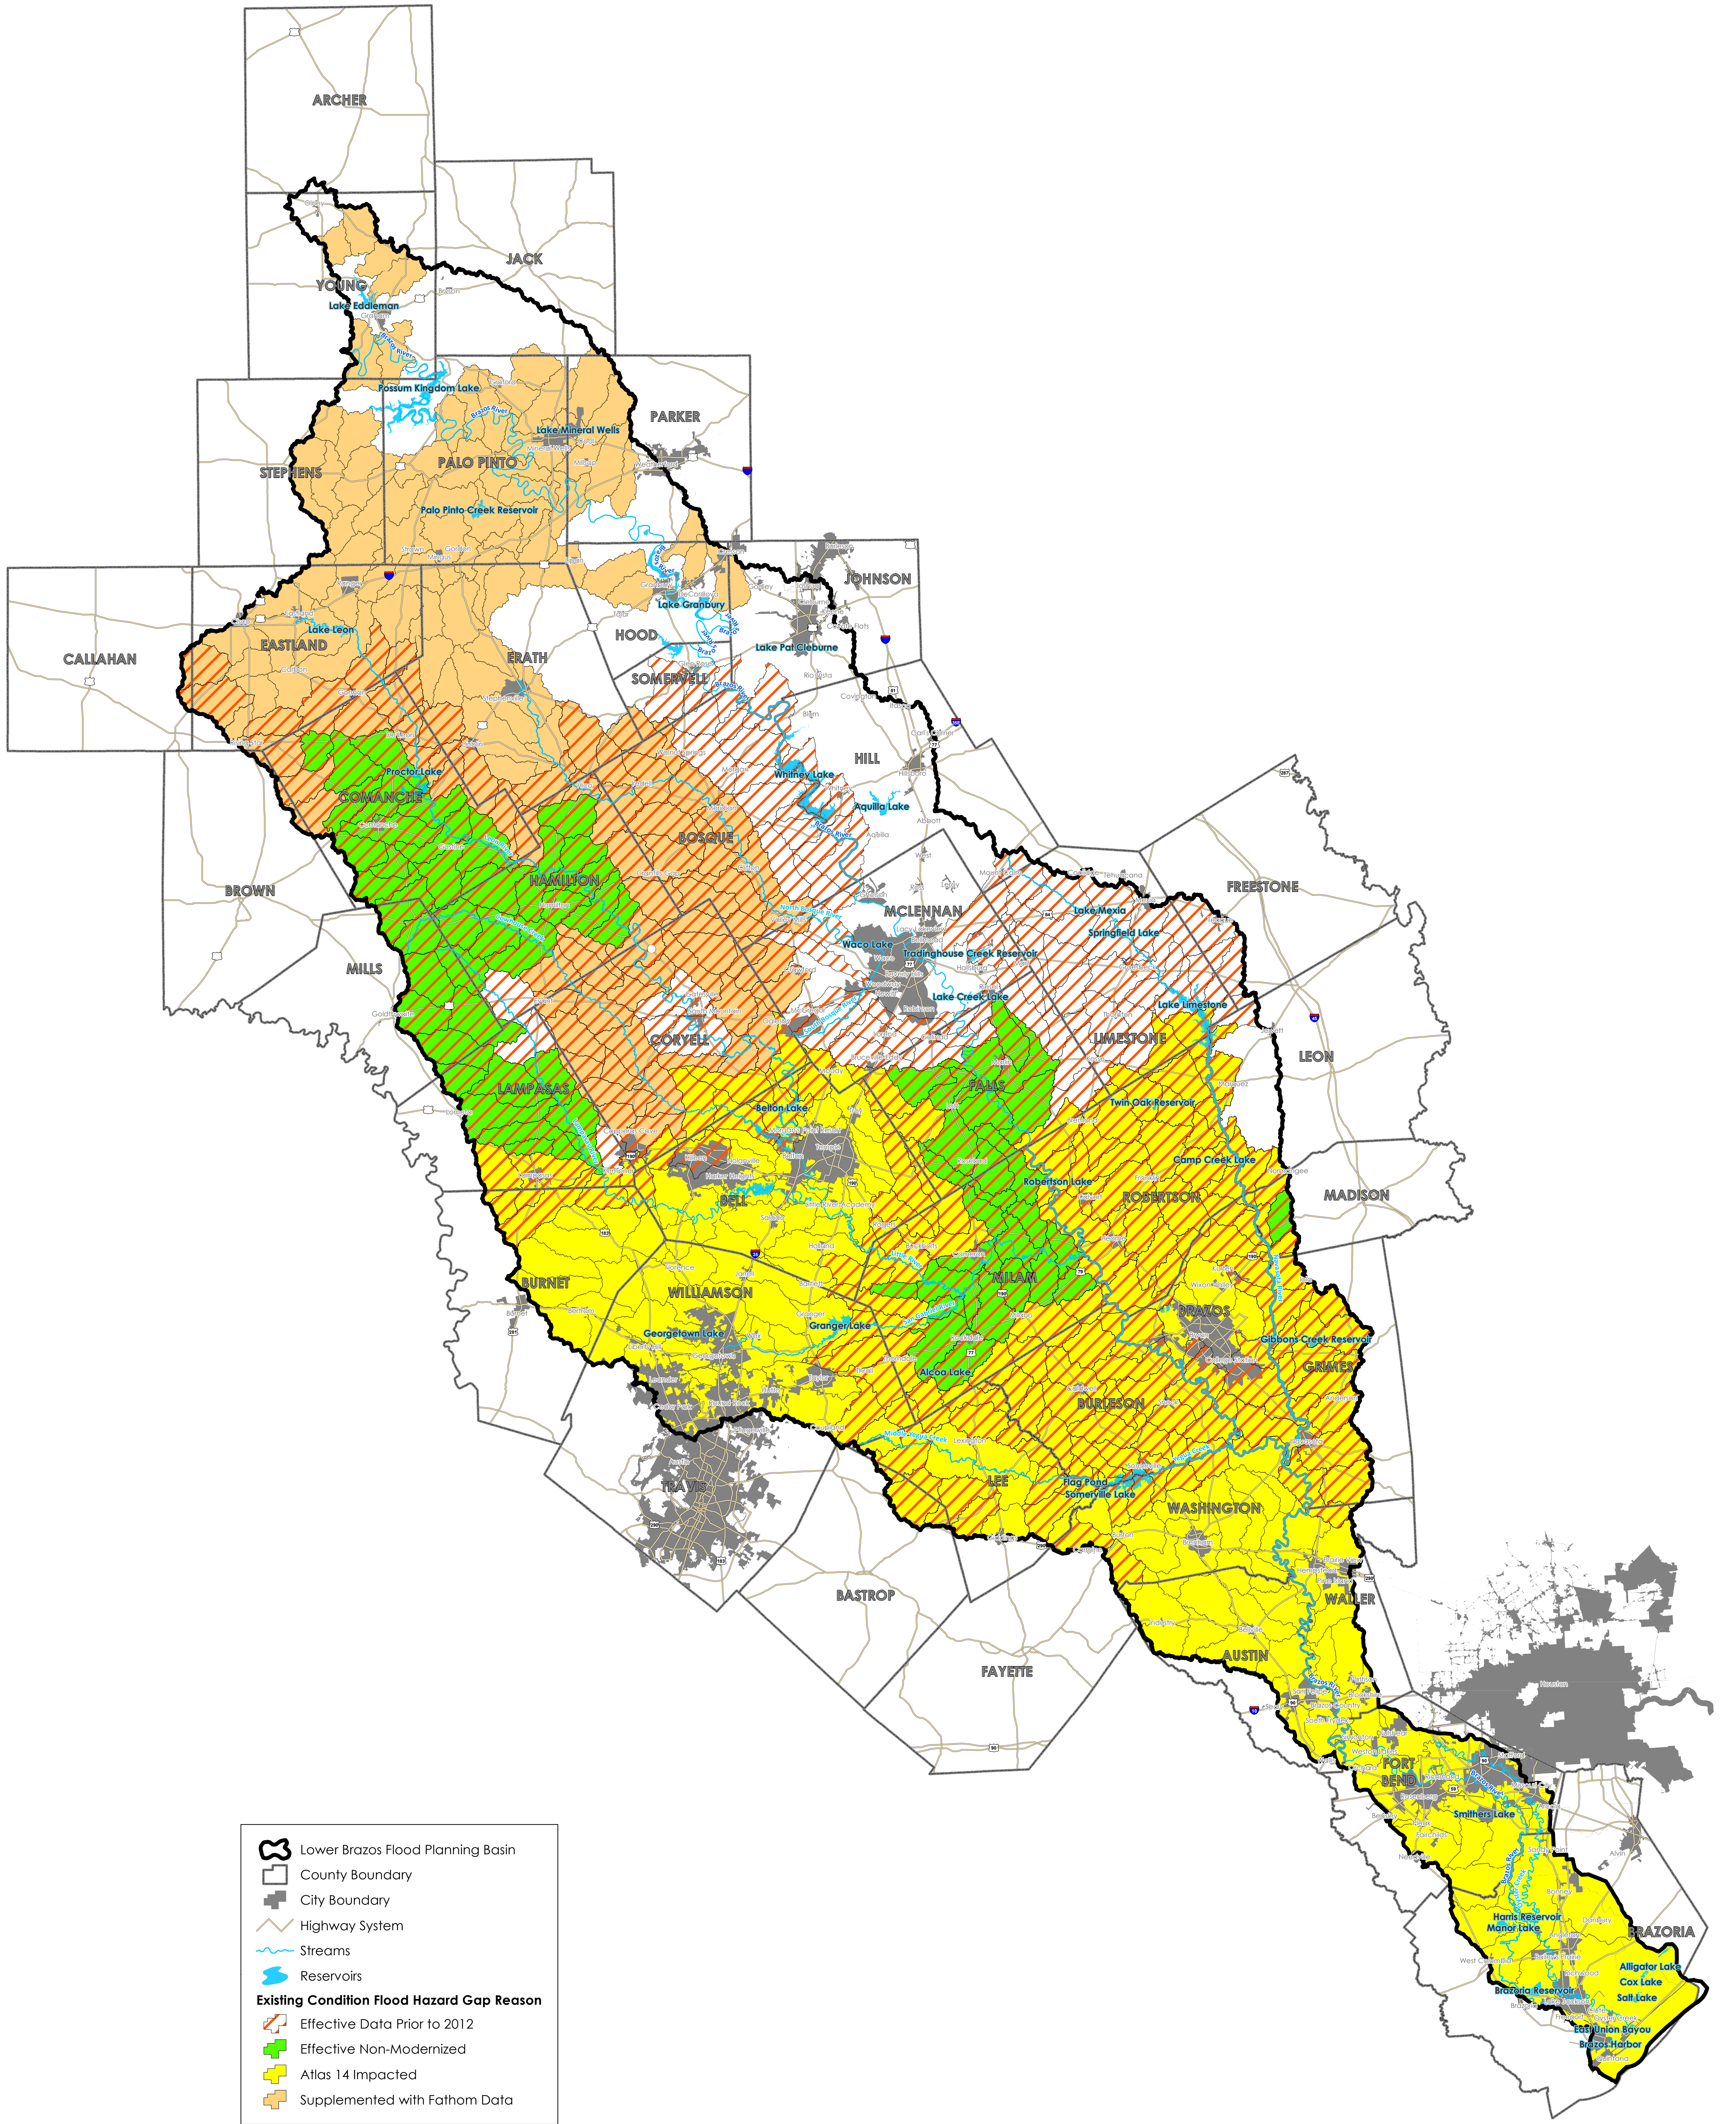

*Projects affecting multiple HUCs were included in the count for each HUC.

Flood Management Type and Mapping Condition

Project Planning

- Modern Mapping
- *Mapping Requires Update
- No Mapping

Preparedness

- Modern Mapping
- *Mapping Requires Update
- No Mapping

Watershed Planning

- Modern Mapping
- *Mapping Requires Update
- No Mapping

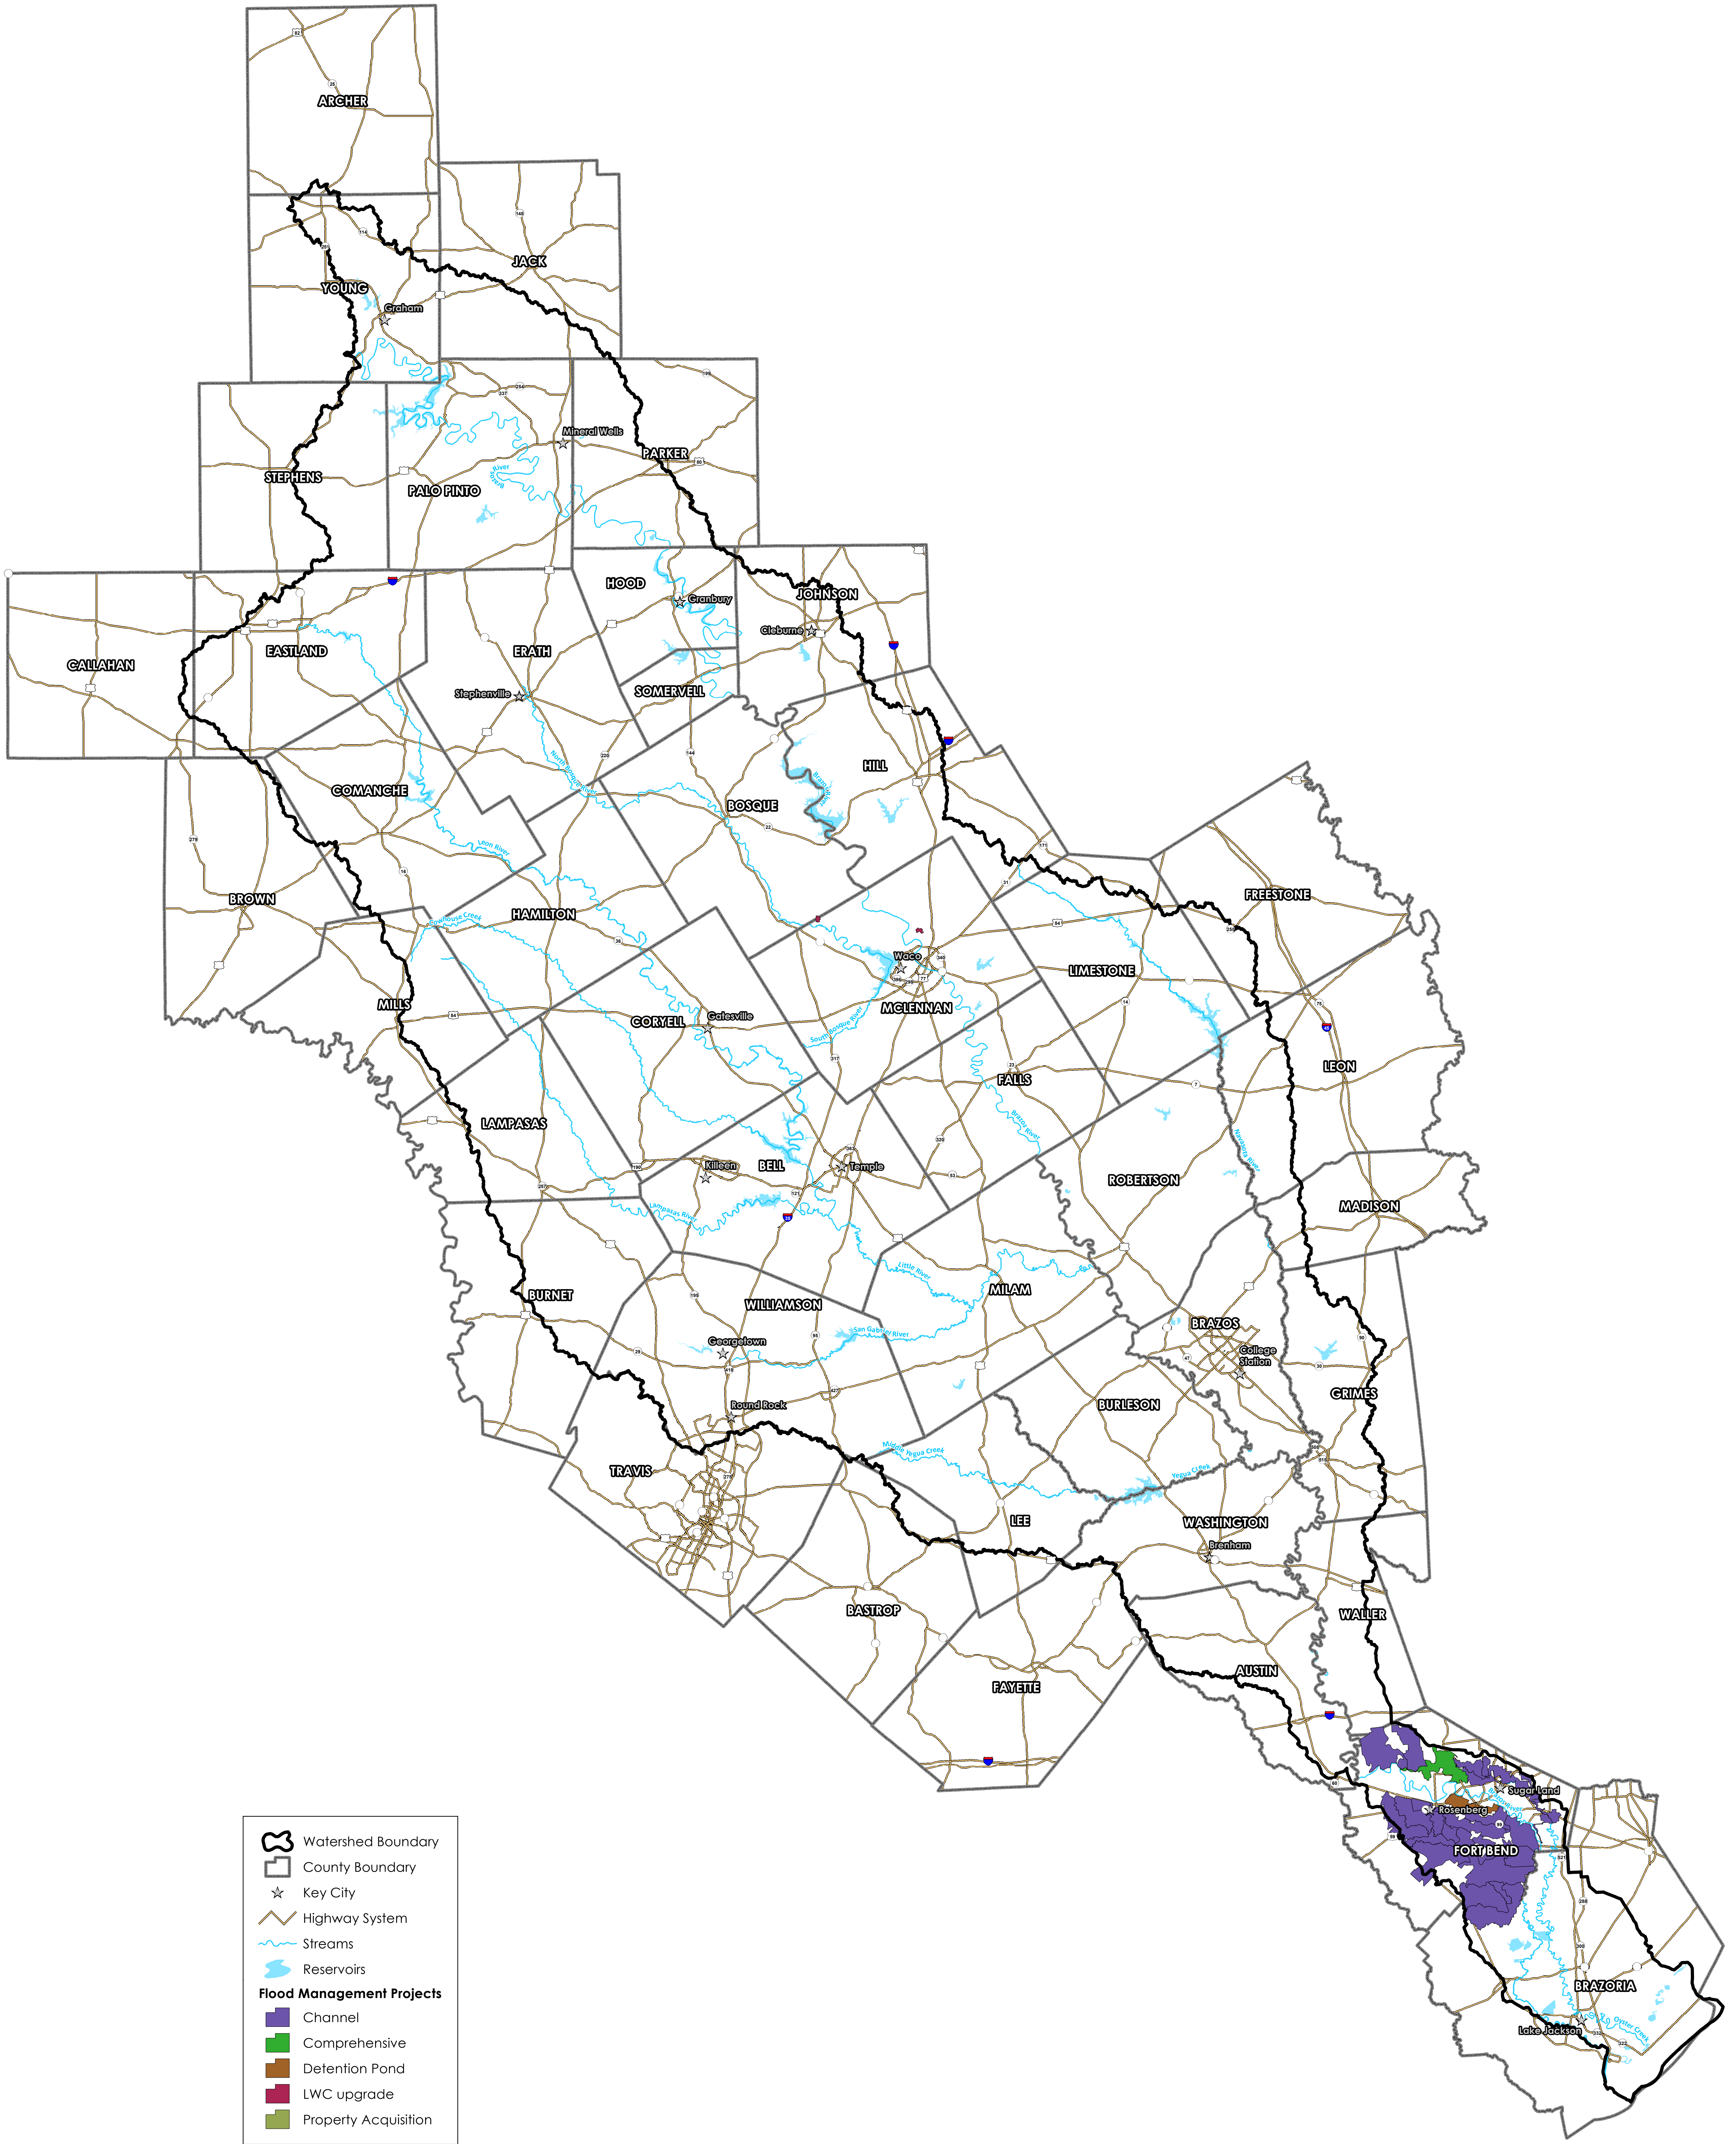

*Mapping requires updates when it is found to meet the following conditions

- Effective FEMA mapping is more than 10 years old
- Effective mapping is non-modernized
- Mapping is affected by Atlas 14 updates

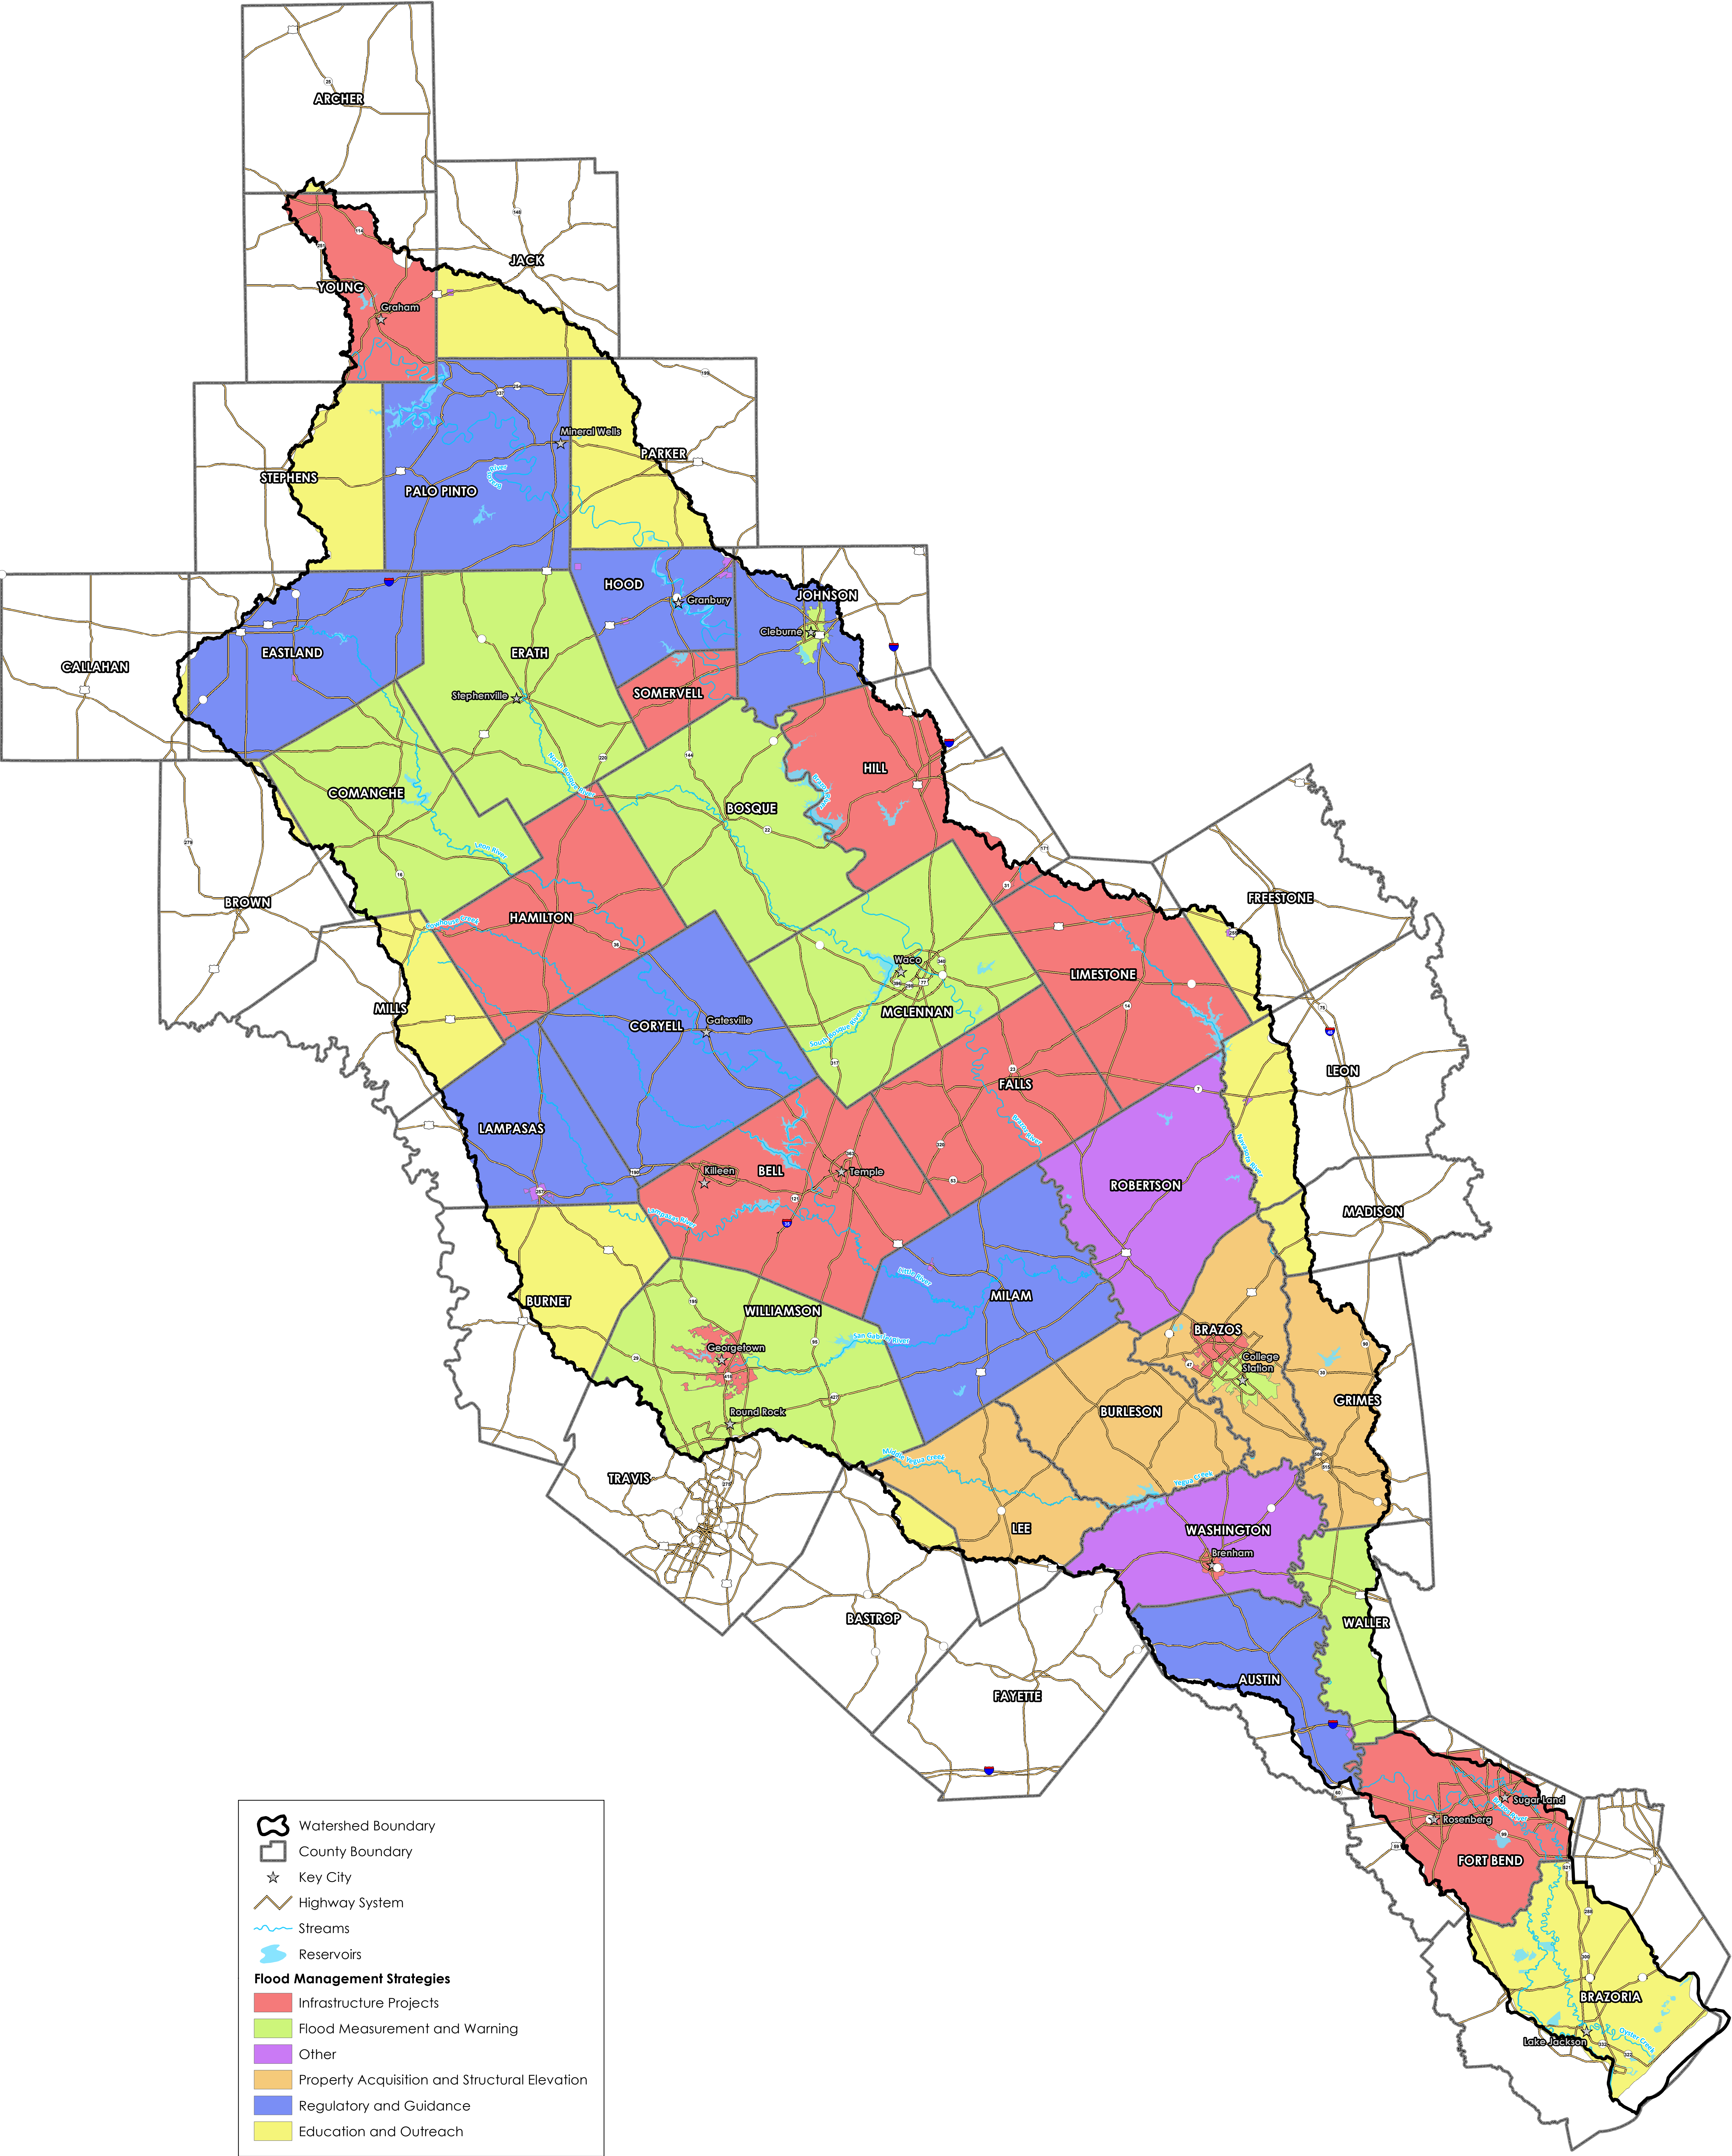

See Map 5 for more information on existing flood map gaps

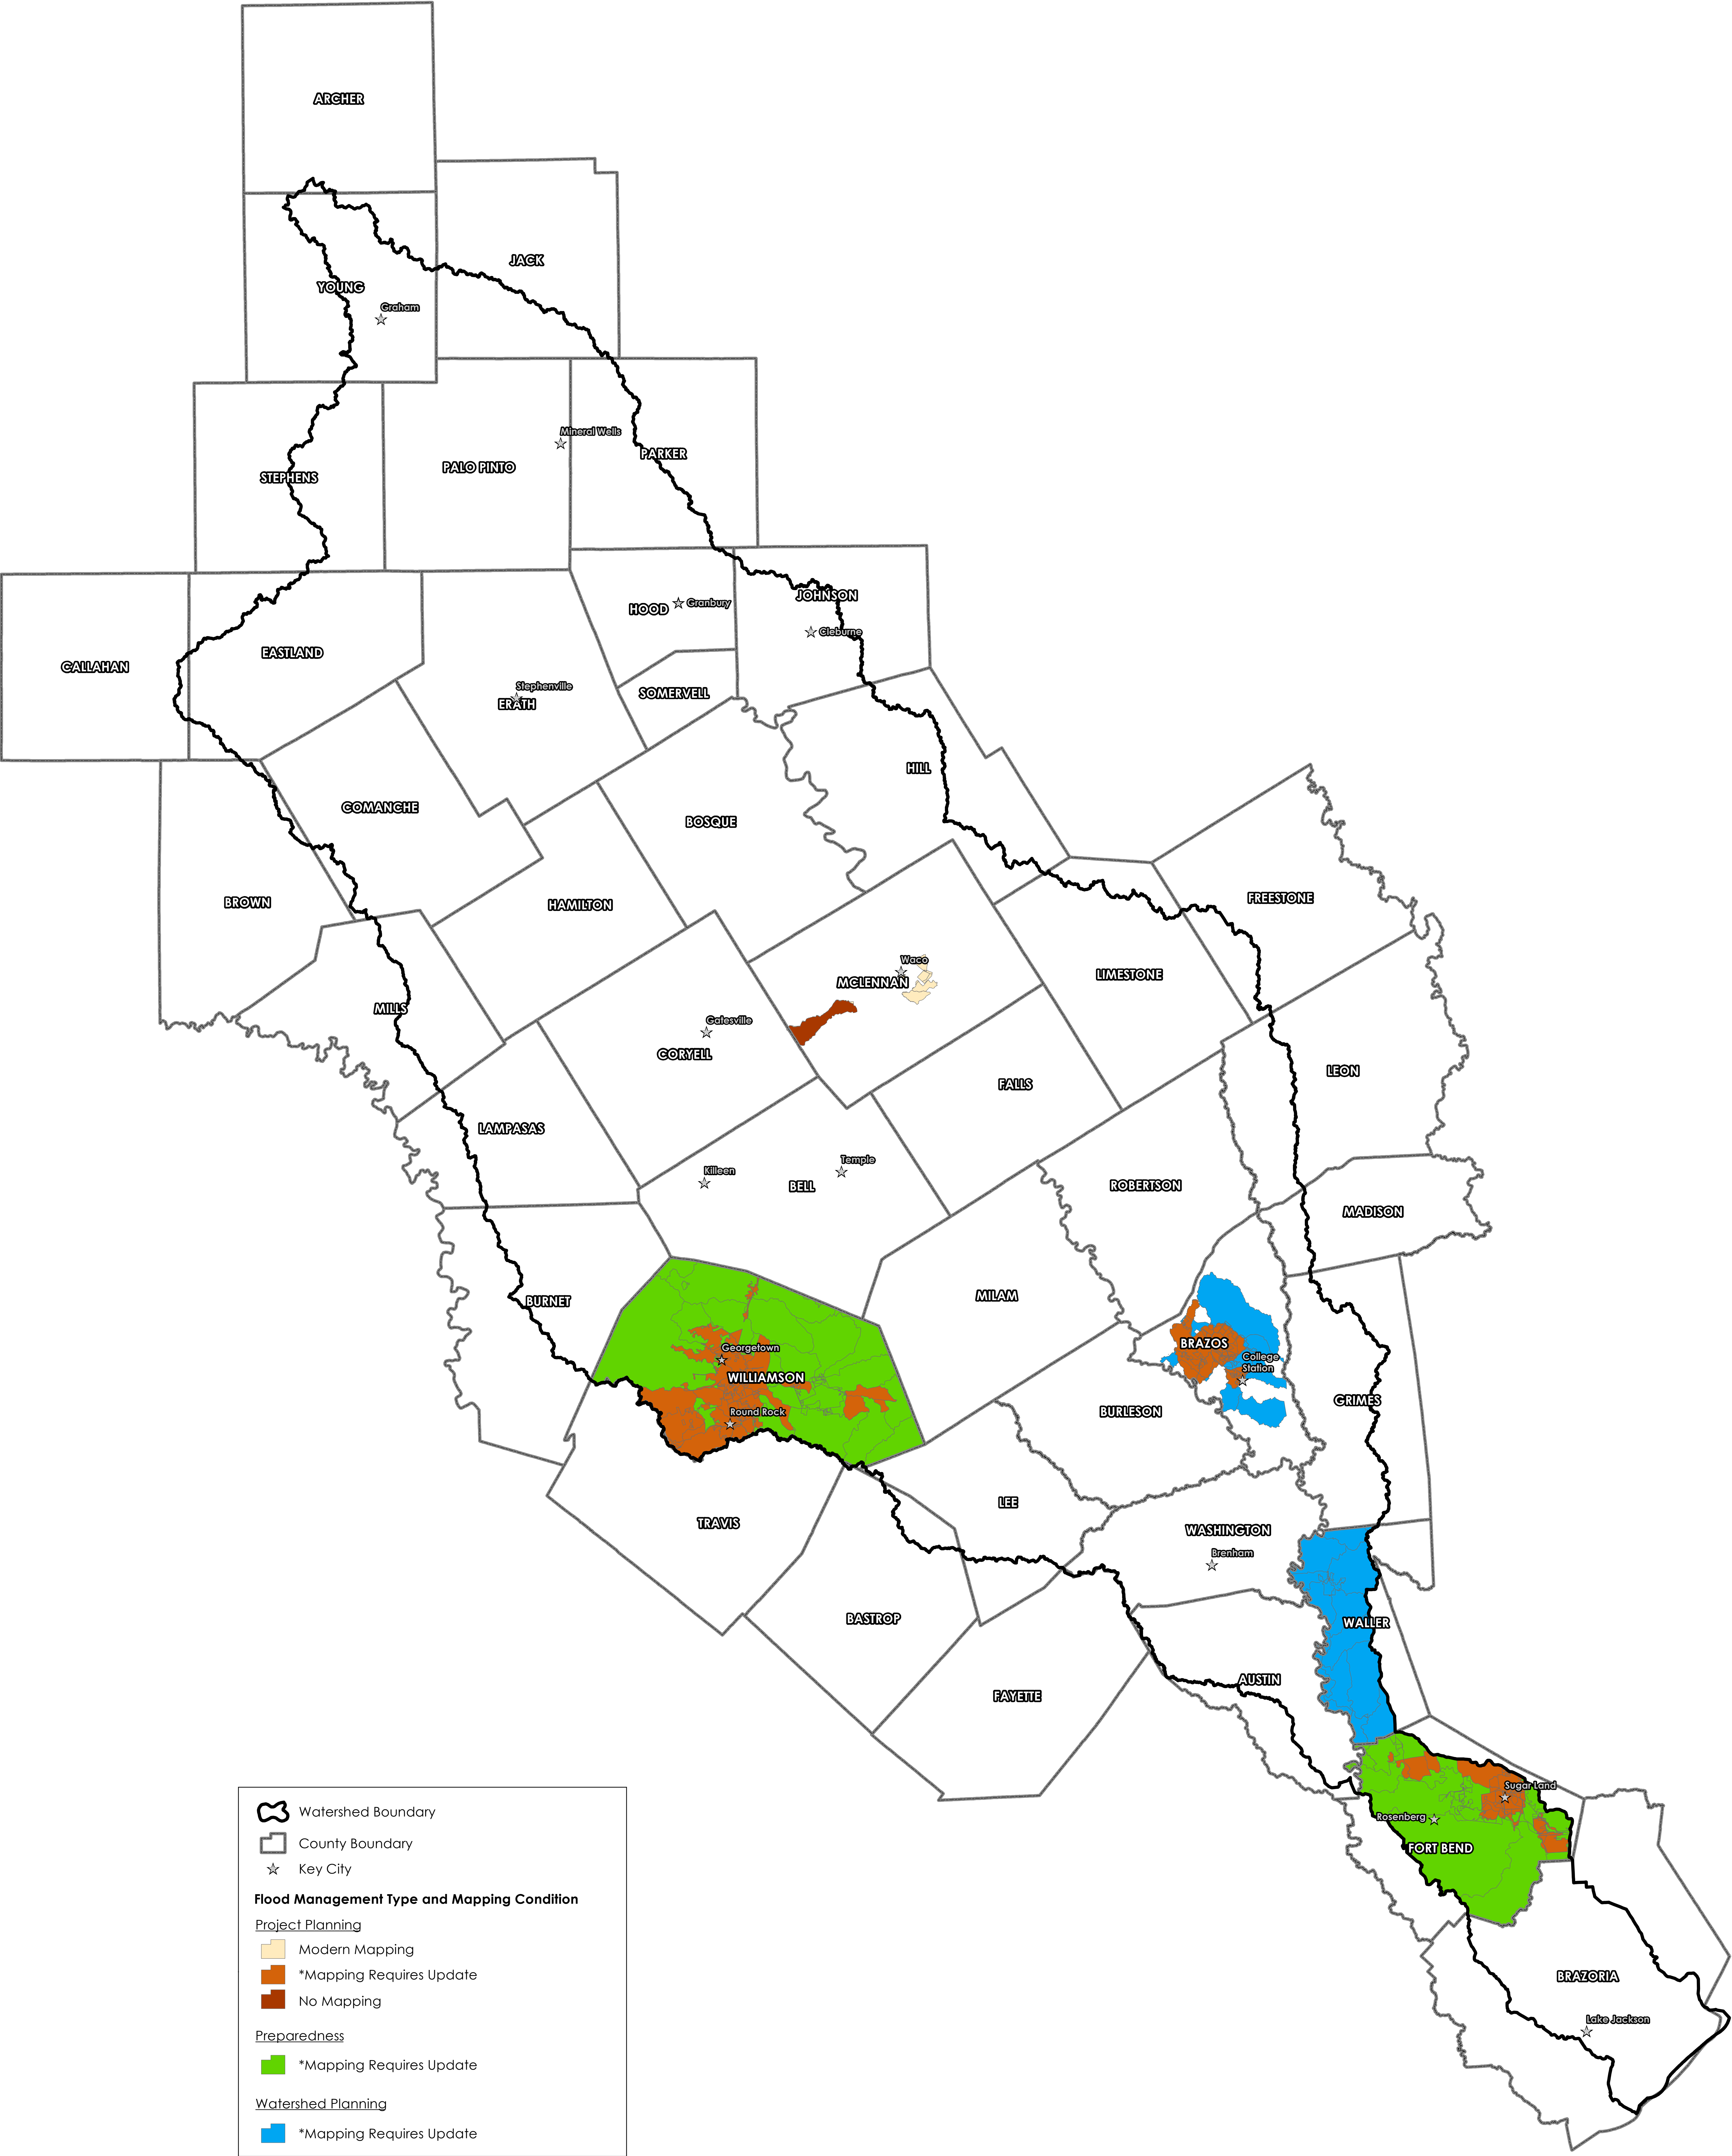

Due to overlaps the full extent of all FMPs are not visible. More details on all of the FMPs can be found in Appendix 4.1.

Due to overlaps the full extent of all FMSs are not visible. More details on all of the FMSs can be found in Appendix 4.1.

Due to overlaps the full extent of all FMEs are not visible. More details on all of the FMEs can be found in Appendix 4.1.
