**Goal 12.0** Addressing the Desired Future Conditions Adopted by the District

The District adopted Desired Future Conditions for relevant aquifers in August 2010. The relevant aquifers are the Ogallala and Edwards-Trinity (High Plains) Aquifers. The Board decided that the Dockum Aquifer is not a relevant aquifer for the South Plains UWCD at this time.

During the joint planning process, this District and five other gcds along the southern end of GMA#2 adopted DFCs for the Ogallala and Edwards-Trinity (High Plains) based on an allowable amount of drawdown. The allowable drawdown is based on the average change during the 10-year period 1998-2007. For the South Plains UWCD, that number is -1.15 ft/year. Based on the 50 year planning horizon, the Southern Ogallala GAM predicts the cumulative drawdown to be 42 feet for the District. However, for the purposes of this management plan, the District proposes to evaluate the cumulative drawdown in five-year periods, which will gauge our attainment of the DFC in shorter increments, and allow us to make any changes accordingly.

It is our belief that no additional rules changes are needed at this time in order to meet the adopted DFC. Our proposal may be altered if, at the end of the current five-year period, our cumulative annual drawdown differs significantly from what is calculated to keep us on track for DFC attainment.

In order to monitor the attainment of the DFC, the Board implements the following objectives:

**Management Objective—Calculate Annual Drawdown**

12.01 The District will calculate the average annual drawdown using the results of annual water level measurements each winter.

**Performance Standards**
12.01a Present the average drawdown results to the District Board each year.
12.01b Publish the average drawdown results in the May edition of the District newsletter each year.

**Management Objective—Calculate Cumulative Annual Drawdown**

12.02 The District will calculate the cumulative average annual drawdown beginning with the 2011 year. The District will calculate the remaining allowable drawdown (based on the DFC) for the remaining 4 years of the period.

**Performance Standards**
12.02a Present the cumulative average annual drawdown results to the District Board each year.
12.02b Publish the cumulative average annual drawdown results in the May edition of the District newsletter each year.
Management Objective—Monitor the District Water Budget

12.03 The District will monitor the water budget calculated in the Southern Ogallala GAM which is estimated to meet the adopted DFC. This water budget will be compared to the annual estimated water use calculated by the District. The estimated remainder of water usage within the selected five-year time period will be calculated each year.

Performance Standards

12.03a Calculate annual water usage within the District. Present the results to the District Board each year.

12.03b Publish the estimated annual water usage in the District newsletter each year.

12.03c Calculate the estimated remaining water usage that is allowable to meet the DFC for the 5 year period and present the figures to the Board each year.

12.03d Publish the estimated remaining water usage figures in the District newsletter each year.
1. Call to order
2. Invocation
3. Rep. Charles Perry will update the Board regarding the upcoming legislative session
4. Consider for approval minutes of August 7, 2012 regular Board meeting
5. Consider for approval budget amendments to 2012 General Fund Budget
7. Set tax rate for 2012
8. Public hearing on proposed amendments to District Management Plan (changes available at the District office or on the web site at www.spuwcd.org).
9. Adjourn public hearing
10. Discussion and possible action on proposed amendments to District Management Plan
11. The Board will hear an update from the Education Coordinator
12. Discuss the Desired Future Condition of the Aquifers
13. Consultation with the General Counsel on Pending or contemplated litigation, including:
   a. Empresa Energy—possible enforcement action
14. Conduct permit hearing
15. Consider for approval well permits
16. Consider for approval bid(s) from the Terry County Appraisal District
17. Monthly Report/Manager’s Report
18. Any other items pertinent to District business
19. Adjourn

The Board of Directors of the South Plains Underground Water Conservation District reserves the right to go into Executive Session at any time during the course of this meeting to discuss any of the matters listed on this agenda, as authorized by the Texas Open Meetings Act, Chapter 552, Government Code. No final action or decision will be made in Executive Session.
1. Call to order
2. Invocation
3. Consider for approval minutes of September 4, 2012 regular Board meeting
5. Consider for approval Audit Report for Fiscal Year ending August 31, 2012
6. Consider for approval Annual Report for Fiscal Year ending August 31, 2012
7. Consider for approval Order Creating Joint Elections Administrator
8. The Board will hear an update from the Education Coordinator
9. Consider for approval Resolution 13-01 Management Plan Amendments
10. Consider for approval requests from City of Brownfield for Consent to Abate Nuisance and Release of All Claims
11. Discuss the Desired Future Condition of the Aquifers
12. Consultation with the General Counsel on Pending or contemplated litigation, including:
   a. Empresa Energy—possible enforcement action

17. Any other items pertinent to District business
18. Adjourn

The Board of Directors of the South Plains Underground Water Conservation District reserves the right to go into Executive Session at any time during the course of this meeting to discuss any of the matters listed on this agenda, as authorized by the Texas Open Meetings Act, Chapter 552, Government Code. No final action or decision will be made in Executive Session.
South Plains Underground Water Conservation District

Resolution 13-01
Management Plan Amendments

Whereas, the South Plains Underground Water Conservation District (the District) was created on April 23, 1991, by Authority of HB 281 of the 72nd Texas Legislature; and

Whereas, the registered voters of the District confirmed the District’s creation in August, 1992; and

Whereas, the District adopted a Management Plan effective September 9, 2008 as required by SB 1, 75th Texas Legislature;

Whereas, the current Management Plan is required by Chapter 36.1072, Texas Water Code, to be renewed every five years;

Whereas, the Board of Directors has determined that an amendment of the existing Management Plan is warranted; and

Whereas, the Board of Directors has determined that the amended Management Plan adequately addresses the requirements of Chapter 36.1071, Texas Water Code; and

Whereas, the amended Management Plan shall become effective on November 6, 2012 upon adoption by the Board of Directors of the District and shall remain in effect until August 31, 2013, or until a revised Plan is adopted, whichever occurs first, therefore be it

Resolved, that the Board of Directors of the South Plains Underground Water Conservation District hereby adopt the amended Management Plan; and further

Resolve that this amended Management Plan shall become effective November 6, 2012.
Adopted this 6th day of November, 2012, by the Board of Directors of the South Plains Underground Water Conservation District.
