

**Groundwater Management Area 7
Desired Future Conditions**

Aquifer	Desired Future Condition Summary	Date Desired Future Condition Adopted
Capitan Reef	Total net decline in water levels within the Middle Pecos Groundwater Conservation District over 50 years shall not exceed 15 below water levels in the unconfined portion of the aquifer in the year 2010; and total net decline in water levels over 50 years shall not exceed 200 feet below water levels in the confined portion in the aquifer in year 2010. Not relevant outside of district boundaries.	7/29/2010
Dockum	Upper Dockum: net total drawdown not to exceed 29 feet in Midland County. Lower Dockum: net total drawdown not to exceed 4 feet in Ector, Mitchell, Pecos, Scurry, and Upton counties (Lone Wolf Groundwater Conservation District, Middle Pecos Groundwater Conservation District); and drawdown not to exceed a net total of 39 feet in Nolan County (West-Tex Groundwater Conservation District). Not relevant in all other areas of Groundwater Management Area 7.	7/29/2010
Edwards-Trinity (Plateau), [Trinity, and Pecos Valley]	Average drawdown of 7 feet except within Kinney County GCD. Kinney County drawdown consistent with maintaining annual average flow of 23.9 cubic feet per second and median flow of 24.4 cubic feet per second at Los Moras Springs.	7/29/2010
Ellenburger-San Saba	Total net decline in water levels within Hickory Underground Water Conservation District No. 1, Hill Country Underground Water Conservation District, Kimble County Groundwater Conservation District, and Menard County Underground Water District over 50 years shall not exceed 5 feet below 2010 levels. Not relevant in all other areas of Groundwater Management Area 7.	7/29/2010
Hickory	Total net decline in water levels within Hickory Underground Water Conservation District No. 1, Hill Country Underground Water Conservation District, Kimble County Groundwater Conservation District, Menard County Underground Water District, and Llano County and non-district areas in McCulloch and San Saba counties over 50 years shall not exceed 7 feet below 2010 levels. Not relevant in all other areas of Groundwater Management Area 7.	7/29/2010
Lipan	Within Lipan-Kickapoo Water Conservation District in Concho, Runnels, and Tom Green counties continue to use 100 percent of all available groundwater annually with annual fluctuations of water levels and zero net drawdown in water levels over the next 50 years. Not relevant outside of district boundaries.	7/29/2010
Marble Falls	Total net decline in water levels in San Saba County over 50 years shall not exceed 7 feet below 2010 water levels in the aquifer. Not relevant in all other areas of Groundwater Management Area 7.	7/29/2010
Ogallala	Total decline in volume of water within Ector, Glasscock, and Midland counties over 50 years shall not exceed 50 percent of volume in the aquifer in the year 2010. Not relevant in all other areas of Groundwater Management Area 7.	7/29/2010
Rustler	Total net decline in water levels within the Middle Pecos Groundwater Conservation District over 50 years shall not exceed 300 feet below water levels in the aquifer in year 2010. Not relevant outside of district boundaries.	7/29/2010
