

You are invited to participate in a Stakeholder Advisory Forum (SAF) for the Brazos River Alluvium Aquifer (BRAA) Groundwater Availability Model (GAM). The SAF will be held Thursday, May 26th, 2016 at 11:00 a.m. in the Milano Civic Center located at 120 West Avenue E, Milano, Texas.

The primary objective of this SAF is the presentation and discussion of the BRAA GAM numerical model. The presentation topics for this forum include:

- (1) An overview of the GAM program;
- (2) Review of the conceptual model;
- (3) Model construction;
- (4) Model calibration; and
- (5) Model results

We encourage your input, questions, and discussion on these topics at the SAF. Additional information on the GAM program and on the role of the SAF can be found at the TWDB web site at <http://www.twdb.texas.gov/groundwater/models/gam/index.asp>. Stakeholder participation is critical to the development of this aquifer model and the success of the GAM program. Stakeholder participation is promoted in the GAM program through public stakeholder meetings. INTERA, in cooperation with the TWDB, is holding these meetings as part of the model development process. The public forums are meant to update stakeholders on the progress of model development and to solicit your comments and discussion. Anyone interested in the development of this aquifer model is invited and encouraged to participate. Presentations and a summary of questions and answers from the meetings will be posted at the TWDB website.

The TWDB contract manager for the BRAA GAM is Ms. Cindy Ridgeway (512-936-2386; Cindy.Ridgeway@twdb.texas.gov). If you have any questions or comments, please do not hesitate to contact Ms. Ridgeway or me (512-425-2070; JEwing@intera.com). We look forward to seeing you at the meeting on May 26th.

Sincerely,

John Ewing

INTERA Inc., Project Manager – Brazos River Alluvium Aquifer GAM
