

## Be on Alert: Phishing Scam Disguised as TWDB

*As of September 9, 2025*

The Texas Water Development Board (TWDB) was recently made aware of a targeted phishing campaign being sent to local communities disguising itself as a “2025 Texas Water Development Board Information Verification” email.

This email did **not** originate from the TWDB, despite the TWDB logo, and includes a fake URL resembling the TWDB domain.

If you received this phishing email, please proceed with caution and contact your organization’s IT department for assistance. If you are ever unsure of the legitimacy of communication claiming to be from the TWDB, please separately contact the TWDB staff with whom you normally communicate or call us at 512-463-7847.
