

March 24th, 2015

Mr. Mathew Webb
Contract Administrator
Texas Water Development Board

RE: Progress Report #1 – Lane City Research Grant Contract No. 1400011761
Reporting Period 12/2014-2/2015

No construction is currently underway for the Wave Wall, River Return System, or the Chimney Drain. LCRA is not requesting any construction cost reimbursement at this time.

Task 1: In February 2015, Wharton County issued a development permit to LCRA for the reservoir construction.

Task 2: In February 2015, LCRA issued a notice to proceed to the construction manager (Barnard Construction), to construct the test embankment (GMP 1). Barnard construction has relocated to Lane City, site preparation and mobilization for the construction of the test embankment is currently underway. Equipment mobilization has commenced with the arrival of scrapers, excavators, dozers, loaders, and graders. Key hourly employees and foreman have started mobilization to the project site.

Task 3: No work completed during reporting period.

If you have any questions or concerns please feel free to contact me at 512-730-6693 or Kate.Reilly@lcra.org.

Thank you,
