February 26, 2013

Michael Webber is the Josey Centennial Fellow in Energy Resources, Co-Director of the Clean Energy Incubator, Associate Director of the Center for International Energy and Environmental Policy, and Associate Professor of Mechanical Engineering at UT Austin, where he teaches and conducts research on energy and environmental topics. He holds 4 patents, is on the board of advisers for *Scientific American*, and has authored more than 150 publications. He is also an originator of Pecan Street, Inc., a public-private partnership for smart grid innovation and deployment. Previously he studied at the RAND Corporation and was a Senior Scientist at Pranalytica, where he invented sensors for homeland security, industrial analysis, and environmental monitoring. He has a B.A. and B.S. with High Honors from UT-Austin and an M.S. and Ph.D. (Mechanical Engineering) from Stanford. He has been an American Fellow of the German Marshall Fund, a White House Fellowship finalist, an AT&T Industrial Ecology Fellow, and has been honored by UT for exceptional teaching.
