Job Description Summary

Performs complex (journey-level) to highly complex (senior-level) work. This software developer will play a fundamental role in helping TNRIS manage and publish geospatial information for the state of Texas. Working on a small team of developers, projects will be directed under the guidance of the TNRIS director and the Information Services team manager. Projects are typically oriented around public-facing web sites, services, and mapping applications, or internal-facing tools for collaborating and managing TNRIS' vast archive of geospatial data. Existing applications are primarily written in JavaScript and/or Python and run in a cloud-based environment. May train others. Works under general to limited supervision, with moderate to considerable latitude for the use of initiative and independent judgment. Reports to the manager of the TNRIS Information Services Team.

Essential Job Functions

- Work collaboratively to assist with the design and development of web-based applications and static websites using modern tools and frameworks.
- Identify areas of improvement in user interface design for potential use in enhancing our current and future web applications.
- Produce and maintain detailed technical documentation and present solution briefings to management and other development team members when necessary.
- Follow established software development processes and TNRIS documentation using source code revision control, continuous integration, and rapid release cycles.

Female and minority applicants are encouraged to apply.

The Texas Water Development Board does not discriminate on basis of race, color, national origin, sex, religion, sexual orientation, age, or disability in employment or provision of services, programs, or activities.
Please visit TWDB Career Page: <http://www.twdb.texas.gov/jobs/> for more information.

Males born on or after January 1, 1960, will be required to present proof of Selective Service registration on the first day of employment or proof of exemption from Selective Service registration requirement. All offers of employment are contingent upon the candidate having legal authorization to work in the United States. Failure to present such authorization within the time specified by the U.S. Department of Labor will result in the offer being rescinded. Candidates must be eligible to work in the United States without requiring sponsorship. Only applicants interviewed will be notified of their selection or non-selection. Resumes will not be accepted in place of a completed State of Texas application unless indicated.

TWDB participates in E-Verify! Information from each new employee's Form I-9 will be provided to the Social Security Administration (SSA) and, if necessary, the Department of Homeland Security (DHS) to confirm work authorization.

The TWDB is in compliance with the Americans with Disabilities Act and makes reasonable accommodations for applicants and employees with disabilities. If a reasonable accommodation is needed to participate in the job application or interview process, to perform essential job functions, and/or to receive other benefits of employment, please contact the Human Resources Division for assistance at (512) 475-2142. Deaf and hard of hearing applicants may contact our office via Relay Texas at 1-800-735-2989 (TTY/TDD).

Job Vacancy Notice (cont.)

- Graduation from an accredited college or university with major coursework in Computer Science, Computer Engineering, Information Systems or similar; or equivalent work experience.
- Three years of experience with web application development, programming, server administration, or similar.
- Relevant experience and education may be substituted for one another on a year-for-year basis.

Preferred Qualifications

- Four years of experience with web application development.
- Experience with open source programming tools.
- Experience with graphic design tools/software and methods.
- Experience evaluating and resolving complex business and technical problems across multiple disciplines.
- Experience with agile methodologies or similar software practices.
- Experience using source revision control, issue tracking systems, and continuous integration or similar systems.

Knowledge, Skills, and Abilities (KSAs)

- Knowledge of local, state, and federal laws and regulations relevant to TNRIS; and of the principles and practices of public administration.
- Knowledge of the open web, e.g., CSS, HTML, JavaScript and Python, or similar.
- Knowledge of relational database management systems.
- Knowledge of terminal/bash commands and navigation of an operating system.
- Knowledge of high-level scripting languages to automate common data management tasks.
- Knowledge of modern JavaScript development, e.g., React or similar.
- Knowledge of cloud-based infrastructure, automated deployment tools, and/or Unix-based environments.
- Skills in using Microsoft Office programs such as Word, Excel, and Access.
- Skills in use of internet, email, word processing, spreadsheet, presentation, and database software.
- Skills in front-end web mapping technologies, e.g., Leaflet, Esri, ArcGIS Online, Mapbox, etc.

Job Vacancy Notice (cont.)

Posting number 20-66R

- Skills in source code revision control and management systems, especially Git and GitHub.
- Skills in database management and design, particularly in SQLite, PostgreSQL, or similar.
- Skills in communication and documentation for audiences of all technical levels.
- Ability to adhere to work schedules, follow procedures with respect to leave, and submit accurate timesheets by prescribed deadlines.
- Ability to make mature, objective decisions and identify areas of potential problems.
- Ability to perform effectively and willingly when changes occur in scope and nature of the work and work environment.
- Ability to perform routine and non-routine work assignments accurately and on-time with little or no supervision.
- Ability to perform assigned duties and improve work habits and/or output.
- Ability to complete assigned work, on time, neatly and with infrequent errors.
- Ability to interpret policies, procedures, and regulations.
- Ability to provide prompt, courteous and accurate assistance and clear and concise communication to internal and external stakeholders both verbally and in writing.
- Ability to work and cooperate with others in a team environment.
- Ability to manage multiple tasks.
- Ability to stand/sit/move with no physical limitations or aids to perform activities such as retrieve/replace files in a large file system for boxes up to 30 lbs.
- Ability and willingness to travel 5% of the time, primarily within the state of Texas.
- Ability to operate a vehicle (state or personal) for state business and maintain a driver's license and driving record that complies with state and agency requirements.
- Ability to work days that may exceed 8 hours, including early mornings, nights, and weekends.
- Ability to train others.
- Ability to learn new technologies and frameworks, adapt strategies when necessary, and get things done.

Remarks

- Copy of required academic transcripts and/or licensures and driving record must be submitted at the time of hire. Failure to provide required documentation will result in no further consideration for employment.
- Important Notice: Otherwise qualified candidates who are ultimately considered for potential employment with the Texas Water Development Board may be the subject of a request for any criminal history record information maintained by the Texas Department of Public Safety (DPS). Evidence of a criminal conviction or other relevant information obtained from the DPS shall not automatically disqualify an individual from employment with the Texas Water Development Board.
