Job Description Summary

Performs highly complex to highly advanced (senior-level) consultative services and technical assistance work on the Texas Water Development Board (TWDB) Financial Assistance programs. Work involves planning, developing, and implementing guidelines, both internal and external, to ensure compliance with the TWDB's programs. Responsible for establishing goals and objectives; developing guidelines, forms, procedures, policies, rules and regulations; developing schedules and setting priorities; and coordination with cross-divisional and/or cross-agency teams to maintain standards for achieving established goals. Represents TWDB and its programs to citizen groups and governmental agencies. Leads and serves as the primary point of contact for the Flood Mitigation Program. Oversees and/or participates in special projects/ programs as assigned by the Manager, Division Director, Assistant Deputy Executive Administrator, or Deputy Executive Administrator. May train others. Works under limited to minimal supervision, with moderate to considerable latitude for the use of initiative and independent judgment. Reports to the Manager of the Program Administration Department.

Essential Job Functions

- Serves as the Water Supply & Infrastructure subject matter expert for flood mitigation funding programs in order to provide services to internal and external stakeholders on program administration, state and federal laws, legislation, rules, regulations and guidelines pertaining to the administration of our financial assistance programs.
- Responsible for providing consultative and technical assistance on state and federal statute, rules, regulations, guidelines, and program administration pertaining to the state funded flood programs to internal and external stakeholders specializing in outreach and education to our outside entities seeking financial assistance from these programs.

Female and minority applicants are encouraged to apply.
