28 - 1/10 minute quadrangle
35 - 1/100 minute quadrangle

WELL NUMBERING SYSTEM
The Texas Water Development Board has identified a numbering system based on the natural geographical features of the State. Each county is divided into 1-degree quadrangles, each of which is further divided into 1/2-degree quadrangles. The 1/2-degree quadrangles are further divided into 1/10-degree quadrangles. Each 1/10-degree quadrangle is further divided into 1/100-degree quadrangles. The numbering system is based on the natural geographic features of the State.
