WATER WELL NUMBERING GRID

Explanation of Water Well Numbering System

LOCATION OF GRID CELL
78 - 1-degree quadrangle
28 - 1/2-minute quadrangle
5 - 1/10-minute quadrangle

WELL NUMBERING SYSTEM
To illustrate the location of wells and avoid duplication of well numbers, a statewide well number- ing system has been adopted. It is
unique in Texas Water Development Board GIS
software. No claims are made to the accuracy
or completeness of the information shown nor its suitability for a particular use.

1-degree quadrangle is divided into
7 1/2-minute quadrangles, then each
1/2-minute quadrangle is divided
into
2 1/10-minute quadrangles. There are
128 1/10-minute quadrangles in the
1-degree quadrangle. The 1/10-minute quadrangles are numbered, beginning with the 1-st digit at the center of the 1-degree quadrangle and
follows the 1.0 decimal grid. Each 1/10-minute quadrangle is further divided into
7 1/2-minute quadrangles, then each
1/2-minute quadrangle is divided
into
2 1/10-minute quadrangles.
