

Water Weekly

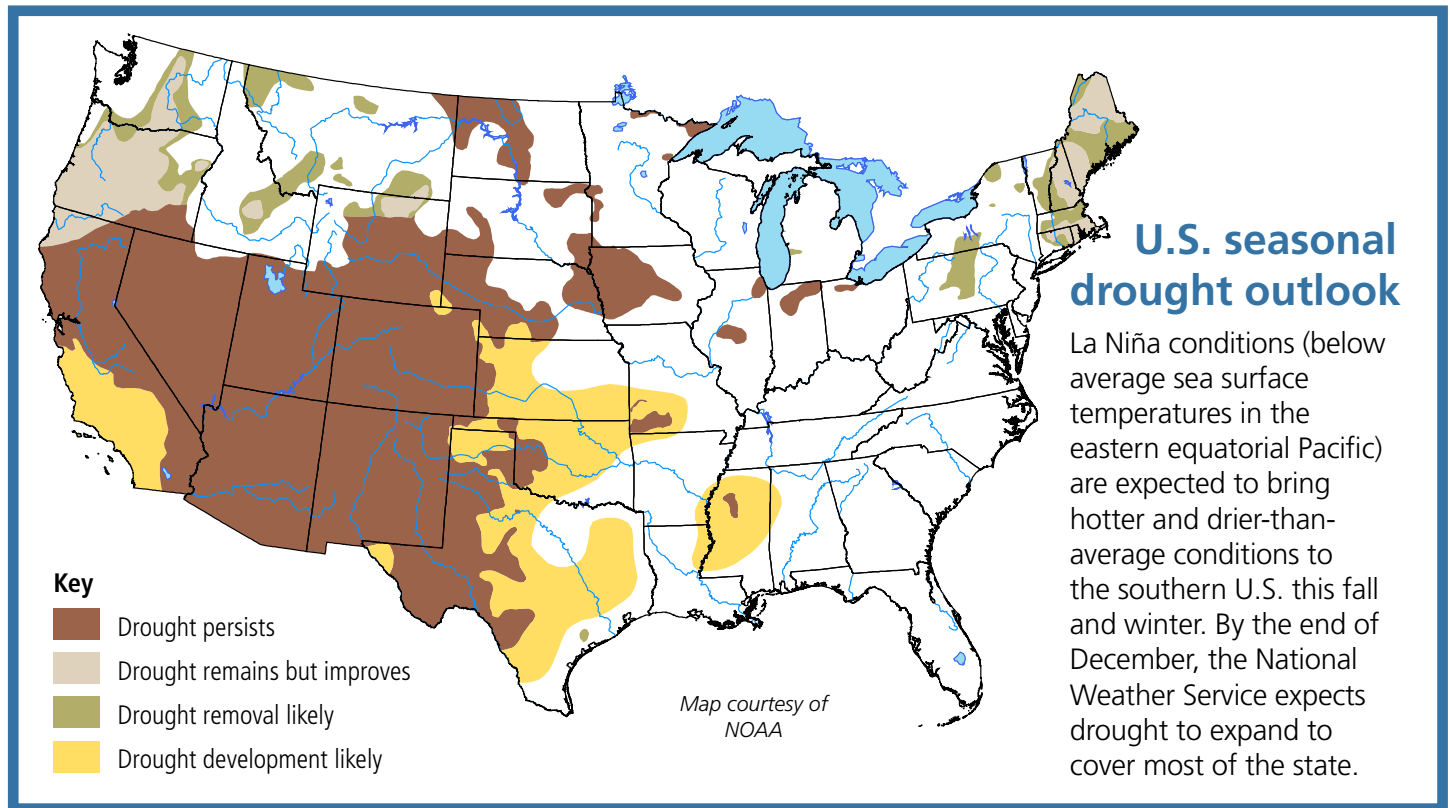

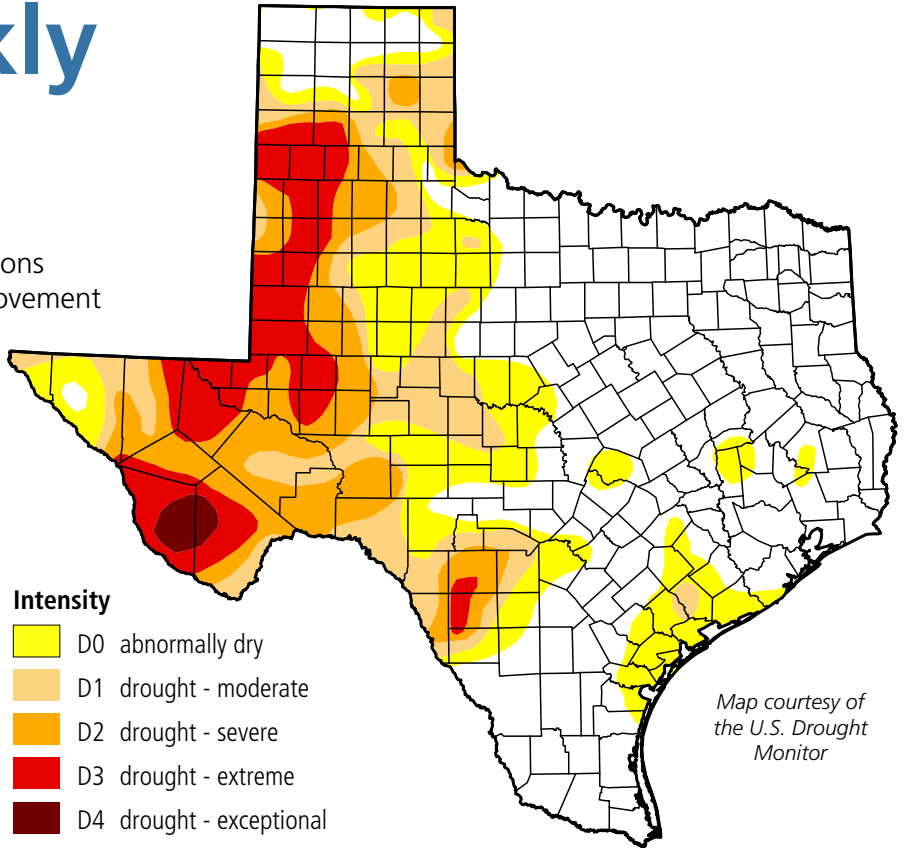

For the week of 09/21/20

Water conditions

The latest drought monitor map for conditions as of September 15 shows continued improvement in Central Texas and the northern Panhandle. We can expect additional improvements for the eastern half of the state in next week's map thanks to Gulf moisture pumped into the state by Tropical Storm Beta.

Drought conditions

- ◆ 34% now
- ◆ 40% a week ago
- ◆ 27% three months ago
- ◆ 52% a year ago
