Subject: State Water Plan

Sir: I am writing to voice my oppositon to the draft of the State Water Plan as it is presently written. After all the testimony over the past number of years, I cannot believe that the members of the State Water Board and the Regional Planning Boards have turned deaf ears to expert witnesses regarding the futility of constructing more reservoirs, when there are alternatives that are certainly available at less cost. How impossible it is for individual citizens to fight the politics and money that are obviously controlling our state government and its policies regarding our state waters.
