Subject: Marvin Nichols Lake

Sir, I am sending this to protest the building of this unnecessary project and the governmental waste and destruction of private property it entails. Although I no longer live in Northeast Texas and am now retired, I lived the majority of my life in North and Northeast Texas. My mother's family and their roots are as deep in that area as anyone's. My parents are buried in Sulphur Springs and I still have a number of relatives in the area and maintain close ties there. I am totally opposed to this and will vote and write accordingly.

Sincerely,
James R. Arthur
