Dear Mr. Roberts,

When I was a small boy, my family lost land to Ceege Lake, land that had been in my family since the 1860s. Now, half a million acres will be taken from Texans for the trans-Texas Corridor, and now before you, another 160,000 acres will be taken for reservoirs. Please reconsider this land grab. Cities don't need more water. They need to conserve water.

Please - no new reservoirs!

Sincerely,
David Hurt
