

EXPLANATION

- 427
Well used for control
Number indicates altitude of water level in the Edwards and associated limestones aquifer, Spring 1978, in feet above mean sea level
- 500 —
Line showing approximate altitude of water level in the Edwards and associated limestones aquifer
Dashed where control is absent or limited
Interval 50 feet
Datum is mean sea level
- Outcrop of the Edwards and associated limestones aquifer
- — — — —
Fault
U, upthrown side; D, downthrown side
Dashed where approximately located
- — — — —
Approximate downdip limit of fresh to slightly saline water in the Edwards and associated limestones aquifer

Base map from general highway map of the Texas Department of Highways and Public Transportation
