

EXPLANATION

- WELL USED FOR CONTROL
- 80 — LINE OF EQUAL OBSERVED POTENTIOMETRIC-SURFACE DECLINE-- Dashed where approximately located. Interval 20 feet (6.0 meters)
- 80 — LINE OF EQUAL SIMULATED POTENTIOMETRIC-SURFACE DECLINE-- Intervals 20 and 50 feet (6.0 and 15.2 meters)

NOTE: Lines not shown along eastern and western borders because of larger node sizes and because of moderate boundary effects
