

# State Water Implementation Fund for Texas (SWIFT)

The State Water Implementation Fund for Texas (SWIFT)\* was created by the Texas Legislature to provide affordable, ongoing state financial assistance for projects in the state water plan. The program helps communities develop cost-effective water supplies by providing low-interest financing, extended repayment terms, deferred repayments, and incremental repurchase terms.

## Eligible Applicants

- Any political subdivision or nonprofit water supply corporation with the ability to issue municipal bonds for a project included in the most recently adopted state water plan.

## Eligible Projects

- Recommended water management strategy projects with an associated capital cost in the most recently adopted state water plan at the time abridged applications are due to the TWDB for consideration, including (but not limited to) projects for
  - conservation and reuse;
  - desalinating groundwater and seawater;
  - building new pipelines;
  - developing reservoirs and well fields;
  - purchasing water rights.

## Benefits and Terms

- Low interest rates based on the TWDB's cost of funds—additional subsidies may apply and are set by the Board for each funding cycle.
- Up to 30-year repayment terms.
- Deferred principal and interest for up to eight years or until end of construction (for planning and design phase costs), whichever is sooner.
- TWDB ownership interest in the excess capacity of a state water plan project, providing entities the opportunity to reasonably finance an optimally-sized regional facility—the TWDB may participate in up to 80 percent of the total project costs.
- Additional interest rate subsidies for rural or agricultural water conservation/irrigation projects.
- Subject to eligibility and Board approval, there is currently no set maximum funding limit.
- Multi-year commitments are available.

## Program Requirements

- Projects must be recommended water management strategy projects in the adopted regional water plans included in the most recently adopted state water plan at the time abridged applications are due to the TWDB for consideration, and have an associated capital cost.
- State-level environmental review.
- Entities receiving assistance over \$500,000 must adopt water conservation and drought contingency plans.
- Financing agreement and private placement memorandum.
- Historically Underutilized Business (HUB) reporting.
- Meet U.S. Iron and Steel requirements—except projects that received a SWIFT program funding commitment before May 1, 2019, for any portion of the project.
- Reservoir funding must be segmented or phased, and permitting is required prior to a construction commitment.
- Board participation is limited to funding of excess capacity portion and up to 80 percent of total project costs.
- Review of legislative requirements regarding water loss threshold limits.
- Entities with at least one public rating from a nationally recognized statistical rating agency may not discontinue the rating issued until their SWIFT obligations are retired or no longer held by the TWDB.
- Entities whose application for financial assistance exceeds 4 percent of the anticipated principal balances owed to the TWDB (including any existing SWIFT program obligations) as of December of the previous year must provide a publicly available rating from a nationally recognized statistical rating organization.\*\*

For specific questions about the program, please contact [SWIFT@twdb.texas.gov](mailto:SWIFT@twdb.texas.gov). Detailed information is also available at [www.twdb.texas.gov/financial/programs/SWIFT](http://www.twdb.texas.gov/financial/programs/SWIFT).

\* The SWIFT program includes two funds, the State Water Implementation Fund for Texas (SWIFT) and the State Water Implementation Revenue Fund for Texas (SWIRFT). Bonds for the program are issued through SWIRFT.

\*\*Applies to entities applying for financial assistance, including their existing SWIFT program obligations, of \$420,416,800 or greater. This amount is subject to change with each annual cycle.
