

**DRAFT Prioritizations of Recommended Water Management
Strategies in the 2011 Regional Water Plans
June 1, 2014**

This file consists of the **DRAFT** prioritizations of all recommended water management strategies in the 2011 regional water plans, as developed and submitted by the regional water planning groups by June 1, 2014. Note that these DRAFT regional water plan prioritizations are based on the Uniform Standards that were developed and adopted by the HB4 Stakeholder Committee and are subject to change in the final prioritization submission.

Now that the DRAFT prioritizations have been developed, the HB4 Stakeholder Committee will reconvene to discuss how they will proceed to develop the final, 2011 regional water plan prioritizations. In accordance with HB4, the final 2011 regional water plan prioritizations are due by September 1, 2014.

A project's prioritization by the regional water planning group is one of the criteria that TWDB will use to rank projects seeking SWIFT funding.
